ERODE MASTER PLAN (MODIFIED)

PART – 1

CHAPTER – 1 – INTRODUCTION

- 1.01** Generally over all frame work in the planning language is called as a Regional plan, Structure plan, Master plan, and Detailed Development Plan – Action plan as the case may be.
- 1.02** The plan at Macro level is called Regional planning which aims balanced growth of the region identifying a hierarchy of settlements from growth poles to central villages. That also identifies new areas for development called as New Towns.
- 1.03** Master plan concerns with the regulation and control of the “USAGE” of primary resource to the optimum benefit of the community. This is a form of physical planning attempting future size, pattern of growth, Direction of development and form etc., of a town or city.
- 1.04** The Master plan takes into consideration the needs of a town and suggests an urban policy or a perspective plan. This may be considered as a second level of planning. Master plan is an instrument of operation and enforcement of a set of identified goals which includes location, spatial allotment, land zoning channels of communication etc.
- 1.05** Before finalizing the Master plan for a town or metro city, the following have been kept in view.
- (i) Improvement of the planning area as spaces for industry and commerce by making it more efficient with improved transportation facilities.
 - (ii) Improvement of the planning area as a place for living by making it healthful safe etc. by providing open spaces and appropriate community facility.

- (iii) Organization of principal functional parks of the city so that economic, social and cultural development furthered.
- (iv) Co-ordination of the varied land uses for congenial functioning of residents, workers, visitors.
- (v) Co-ordination of the varied land uses with the circulation routes and amenities requires for safe movement of people and goods.

1.06 Master plan provides for a system of transportation and communication network to ensure convenient flow of traffic and there – fore Master Plan gives broad zoning of various uses. But Detailed Development Plan on the other hand are prepared based on master plan zonings. The Detailed Development Plans is for a specific extent or area with in the area of Master plan it suggests necessary access ways and roads etc. as per Master plan and also decides additional access ways and other ways & means to carry the proposals.

1.07 Detailed Development Plan are also action plans to complement master plan and they permit the same zoning, land use development controls with the provision of the Master plan. Detailed Development Plan are intended to accentuate the development potential of selected areas within the urban planning hence Detailed Development Plan is a micro level planning.

1.08 The Tamil Nadu Town and country planning Act- 1971 specifies Regional planning areas, urban areas New Town areas and areas for specific detailed planning. Planning authorities are declared for respective territorial extents and their constitutions, functions and powers are indicated in the Act.

1.09 The said Act 1971 also has given provision to review Master plan once in five years to analyze the quantum, transformation of proposals contemplated in the prepared master plan.

1.10 Government have appointed members to the Erode local planning authority according in G.O.No.434 and 435 Housing and Urban Development (UD4-2) department dated 14.12.1998

1.11 Erode district was created bifurcating Coimbatore District during 1979. Erode is the District head Quarters of Erode District. In order to control haphazard physical developments erode Master plan was prepared and approved by the Government under section 28 of Tamil Nadu Town and Country planning in Tamil Nadu Government Gazette in issue No 8 Part II section 2 Dt.28.2.90.

1.12 The Master plan covers a specified geographical space, for planning the land use pattern as existing and the zoning as of today is initially indicated with both the pattern of land use and zoning at a particular point of time in future. The proposals are conceived over a pre specified time – horison.

1.13 According to section 32(2)(b) of the Act the local planning authority may and if so directed by the Government after carrying out fresh surveys as may be considered necessary to review the Master plan and prepare and submit a modified Master plan to Government for approval. As Erode Master Plan was approved in the year 1990, and the developments are taking place fast, it is imperative to review Master plan after carrying out fresh land – use surveys and to prepare modified master plan for approval of the Government.

1.14 An evaluation was made with the land use plan approved during 1990 with the land use plan, prepared in 1996 carrying fresh land and building use survey. Following changes are noticed with reference to the land use map 1996.

1) Road between Salem and Karur road.

- a) Only the industrial developments have taken place in the proposed residential uses.
- b) In the proposed residential zones the developments are very slow and most of the areas are still lies as Agricultural lands.

2) Road between Karur Road and Muthur road

In this sector fast development have taken place some residential development have taken place in the Agricultural zone also and through no Industrial use has been specified in the stretch, five industries have come up in the areas reserved for agricultural purpose.

3) Road Between Muthur Road and Kangeyam Road

In this, some residential development have taken place in the public & semi public use zones as per approved Master plan. Four industries have also come up in the residential use zones contrary to master plan.

4) Road Between Kangeyam Road and Chennimalai Road

In this stretch the areas reserved for public & semipublic uses have developed as residential, commercial and partly as industrial uses. In the primary residential use zone higher education is not permissible. However sizable land in the primary residential uses was converted into a college.

5) Road between Chennimalai Road and Perundurair road

Also in the commercial zone, industries and residential developments have taken place contrary to Master plan. Also in the educational zone, industries and residential developments have come up in their sector.

6) Road between Perundurair road and Nasiyanur road

A chunk of land has been reserved for industrial uses. But mixed developments of residential and industrial uses have come up and again there is no sign of development of public uses in this segment.

7) Road between Nasiyanur Road and Sathi road

In the proposed educational zone except the old CNC College no additional new educational developments have come up. Nearly 50% of the land has developed as residential and industrial areas. In the reserved residential zone, residence and industries have taken place equally. In the allotted industrial zone not even a single industry has come up as per Master plan.

8) Road between Sathy Road and Bhavani road

In the reserved public and semi public use zone only residential development and industrial developments have taken place. In the residential zone 50% of the residential developments has come up very close to the municipal town. In the proposes far off residential use zones, mostly industrial developments have taken place contrary to Master plan.

9) Road between Bhavani road and Salem road

Adjacent to Kalingarayan channel in the approved Master plan, mostly lands were reserved for residential and agri uses. But on the grounds industrial developments have taken place in certain places and however agricultural wet lands are unchanged largely. About 20 reclassification requests have been approved by the Government 101 under the circumstances told above Erode Master plan has been reviewed and Modified Master Plan has been prepared and submitted for consent of Government.

1.15 Erode local planning area comprises of Erode Corporation, Surampatty, Veerappanchatram, Periyasemur, Kasipalayam III Grade Municipalities and Brahmana Periya Agharaharam Town Panchayat, and Pudur, Punjai lakkapuram, Nanjai Lakkapuram villages of Modakurichi Panchayat Union and Sarkar China Agraharam, Brahmana China Agraharam of Erode Panchayat Union. The details of extent and population of constituent of Erode Local planning Area are given in Table No.1.1.

* Town panchayats upgraded as IIIrd grade municipality vide G.O.M.S.No. 7/2004 dated 14.06.2004.

1.16 Reviewed Master plan report prepared now is presented in three parts. Part I deals with exiting features describing about physical configuration, population characteristics, land use pattern & Infrastructural facilities.

Part II deals with proposed development for projected population and their requirement in terms of lands & Infrastructural facilities.

Part III presents development control regulations and occupancies. The land use schedules in different use zones are given in field survey number wise in then Annexure appended with this report.

CHAPTER – 2 : STUDY OF THE EXISTING CONDITIONS

Location

2.01 Erode, a Municipal corporation is away at a distance of 100 kilometer east of Coimbatore and situated on the banks of river Cauvery between 11⁰, 19'.5 and 11⁰, 81'.5" North Latitude and 77⁰, 42'.5" East Latitude. Erode local planning area extent only an area of 80.07 square kilometers with a population of 3.33 lakhs as per 1991 census.

Geology

2.02 Black loam is found in parts of Erode Taluk. In this to be rather sandy, area soil is found stony and of the gravelly type. In general soil can be classified into two main groups (Viz.) black and red soils. Lime stone is found in abundance in the form of modules, streaks and massive beds of grey and white colours inter bounded with ignesis rocks. Feldspar of the fine quality is also found in abundant.

Climate

2.03 The climate of the town and its vicinity is hot and dry. During February and march the climate is usually oppressive especially along river Cauvery. In April the weather gets hotter, humidity is at its maximum. During June, July, and August, cool breeze flows through Palghat gap, but by the time it reaches the Erode taluk it looses its cooling effect and becomes hot and dusty.

Rainfall

2.04 Total rainfall is over 100mm.in a year. When monsoon breaks maximum rainfall reaches 30mm. Erode Taluk gets the major portion of the rain during South-West monsoon. In October the North-East monsoon sets in.

Temperature

2.05 The average maximum and minimum temperature are 96°F and 80°F. The Temperature gradually increase to 85°F the maximum in May and reduces gradually to 80°F in December.

History And Growth

2.06 During Hyder's times, Erode was in the flourishing condition with 3,000 houses and a population of 15,000. But owing to the successive wars of the Maratha, Mysore and British Invasion, it become almost utterly deserted and ruined. However as soon as peace was restored by the British, the people returned and settled in a more advantageous and fertile places and within a year it began to grow with 400 more houses and additional population of 2000. The garrison was withdrawn in 1807 and the ruined Fort was leveled as a relief work during the famine of 1877. **2.07** in 1866, Madras-Podanur rail link passing through Erode town was opened. In the more recent past, the town has developed into a major rail head and transshipment centre. The Diesel Loco shed of the southern Railway is located at Erode. In the last decade a number of textile processing units have been developed in and around Erode.

2.07 Erode Municipality was constituted in 1871. It has been upgraded from Selection grade Municipality to Selection grade municipality with effect from 1.3.1980 as per G.O.Ms.No.349 R.D. & L.A., dated 27.2.1980. The present Municipal limit covers 8.44 square kilometer. As per 1991 census the town had a population of 159232. During the bifurcation of Coimbatore District, Erode become the District Headquarters for Erode District.

Population Characteristics

2.08 The Population study is an important factor in the preparation of Master Plan to access the land requirement for various occupancies. The details of existing population and growth etc. are given in this chapter.

2.09 The total population of the Erode Local planning Area as per 1981 census was 2,47,875 which has grown to 3,33,095 in 1991.

2.10 The population of Erode Town has grown from 15529 in 1901 to 1,59,232 in 1991. It is seen that population of Erode Town has increased by 10 times from what it was in 1901 without any physical changes. The average decennial growth is in the order of 30.11% the decade wise population growth and variation of Erode Town, Rural areas and Erode Local Planning Areas are shown in the Table Nos. 2.1, 2.2 and 2.3.

Table No.2.1

Decade wise population Growth and Variation

A) Erode Town

Year	Population	Variation	Percentage
1901	15529	-	-
1911	16701	1171	07.50
1921	22911	6210	37.10
1931	33672	10761	46.90
1941	39483	5311	15.80
1951	57576	18093	45.80
1961	73762	16186	28.10
1971	105111	31349	42.50
1981	142252	37141	35.40
1991	159232	16980	11.93
Average Variation		15911	30.11

Table No.2.2

B. Urban Areas

Year	Population	Variation	Percentage
1951	33012	-	-
1961	42027	9015	27.31
1971	61807	19780	47.06
1981	105623	43216	70.89
1991	173863	68240	64.61
Average Variation		35212	52.46

Table No.2.3

C. Erode local planning Area

(Erode Town + Urban Area)

Year	Population	Variation	Percentage
1951	90588	-	-
1961	115789	25201	27.82
1971	166918	51129	44.16
1981	247875	80957	48.50
1991	333095	85220	34.38
Average Variation		60626	38.72

2.11 It may be seen that the growth of population from 1981 to 1991 in Erode Local planning Area accounts for 34% of which 12% in Erode Town and the remaining 22% spread over in the constituent parts of the Erode Local planning Area. However the Urban population which accounts for 94% of the local planning area mainly is concentrated around the periphery of the Erode Town.

Occupation pattern

2.12 The major working forces (Age group of 15-59) of Erode town constitute 35.20% as per 1991 census. The secondary and tertiary sectors were the major components of the working population, which accounts to 27.94% and 68.83% respectively. Only 3.23% and 10.63% of workers are engaged in primary sector at Erode Town and Erode Local Planning Area for the decade of 1991. Table No 2.5 indicates occupation pattern for Erode Local planning Area.

Table No.2.4

POPULATION DENSITY

2.13 The pattern of residential developments within the Town had developed with higher density in Erode Town with 191 Persons/Hectare. The population density of Erode Local Planning Area is only 42 persons per hectare.

2.14 The extent of the Erode Local Planning area is 80.07 sq. kms. Developed land with in the local planning area constituted 26.48% of the total area. The developed area constitutes 86.85% of the total municipal area. The Table No.2.6 gives the extent of all major land uses and their percentages for Erode Town and Local Planning Area.

Table No.2.6

2.15 Developments have taken place in the sectors bisected by the arterial roads Residential areas have developed clustery in the Municipal Town and also on fringe areas on the west and south at pallipalayam, town panchchayet which is located or the eastern bank of the river Cauvery. Generally Erode Town is very congested with narrow roads.

2.16 Commercial development are taking place along all major roads commercial areas in Erode Town are concentrated near Erode railway junction along Brough road, Cutchery road, Bazaar Road and Manikoonda area etc.,

2.17 The industrial uses are found north east side of the Erode Town (Karungalpalayam). Most of the industries are located outside the Municipal boundary. A good number of industrial developments are taking place along Perundurair road Chennimalai road, Sathiyamangalam road, Bhavani road, Kangayam road and Karur road. The industries that are located within Erode town are mainly oil mills and allied trades such as Engineering works, automobiles. Dhal mill, Cotton textiles, Vanaspathy manufacturing, screen printing, power Loom, sizing, warping and printing press are also found in and around the Erode Town. The Town industrial area occupies 7.11% of the Erode Corporation area, and the industries in total covers 292 hectares and claims 3.65% area of the Erode Local Planning area.

2.18 13.0 Hectares in Erode Town and 58.0 Hectares outside the town but within Erode local planning Area are classified as Educational use. The educational facilities in the Erode Local planning Area are given in Table No.2.7.

Table No.2.7
EDUCATIONAL FACILITIES

SL.NO.	Educational Institution	Number	Strength
1.	Primary school	36	15165
2.	Middle school	5	5253
3.	High school	10	8792

PUBLIC AND SEMI PUBLIC USE

2.19 Cinema is the major recreational facilities in Erode Town. There are 14 permanent theaters located within the Municipal area. In addition to this there are 14 permanent and semi permanent theaters in the planning area out side the town limit. 21 organized parks and 4 play fields are available in Erode Town and they are notified under parks and play fields act. In addition some recreational clubs run by the private are also available in the town.

2.20 The details of parks and play fields notified in G.O.M.No.228 MAWS (MAS) dated 10.5.96 under parks and play fields Act are furnished in the Table No.2.9.

Table No.2.9.

PUBLIC OFFICES

2.21 57 Government offices are functioning in Erode Town and about 37 offices are functioning in the planning area. 22 banks and 9 bank branches function in the Town and the planning Area respectively.

2.22 All public offices that are very essential for the District administration are functioning in Erode Town alone. The District Collector's office complex accommodates a number of Government offices. Other than this many Government offices are accommodated in private rented buildings. Mostly public offices are concentrated along Perundurai and Brough roads.

TRAFFIC AND TRANSPORTATION

2.23 With in the Town roads are maintained both by Erode Corporation and Highway Department. There is National Highway passing through this town or planning Area. Total lengths of about 73 kms of roads are maintained by Erode Corporation and 21kms. Length by highways department. Erode town is well connected to Coimbatore, Salem, Bhavani, Karur, Kangayam, Sathiyamangalam and Chennimalai by highways roads.

2.24 Most of the roads of about 66.25kms are surfaced with B.T. with in the town and few roads are paved with B.T. in other parts of planning Area.

2.25 The railway junction is located on southern end of Erode Town. One central bus stand for both moffusil service and town services are located at mettur road. Bus stand for moffusil service has been developed with 50 bays. Shops for commercial uses offices, one super market and two restaurants are also available in the central bus stand. The erode bus terminal may be considered as one of the biggest terminal in the state of Tamil Nadu.

2.26 There is no organized lorry stand. The space adjacent to the present bus stand is utilized for parking Lorries. A permanent Taxi stand to park 25 vehicles is situated at Brough road near Pannerselvam Park.

2.27 The town is served by broad Gauge Railway line with a Railway junction located at southern end of the Town. There is separate goods yard also available. Nearest aerodrome is at a distance of 84Km at Kamalapuram in Salem.

WATER SUPPLY

2.28 Erode Town is provided with protected water supply since 1918. The river Cauvery is the source of the water supply. The water is drawn from Cauvery through the syphone system and collected in infiltration wells and treated. Treated water is stored in the 4 over head tanks located in 4 different important places with in the town and distributed through pipes to major parts of the town. Total length of distribution line within the town is 11kms. Percapita supply is about 85 lpcd. Un served area is catered through lorries and carts. About 400 public fountains are also provided.

2.29 With in the local planning area most of the habitants are provided with water supply through the pipe supply.

INDUSTRIES

2.30 The industrial development is taking place at a faster rate along the Bhavani, Sathy, Surampatti and Chennimalai roads. The leather, bleaching and dying industries are concentrated at B.P. Agraharam and Periyasemur villages.

2.31 Both in Erode and Local planning area the major industries are textile mills viz, weaving, spinning, Ginning and Sizing mills, Bleaching and dying etc.

2.32 Another major type of industry thrived well in Erode is oil industry. Gingilly oil and groundnut oil are extracted here.

2.33 Further notable industry found in Erode is leather industry.

OTHER FACILITIES

2.34 Erode and other parts of Local Planning Area are well electrified. Street lights are provided and maintained by the concerned local bodies. Electricity for there is supplied from Mettur system. Distribution and maintenance of electricity is under taken by Tamil Nadu Electricity Board.

2.35 Erode corporation is maintaining two slaughter houses.

DETAILED DEVELOPMENT PLAN

2.36 In Erode Local Planning Area 58 detailed development plans were notified. Among them 22 detailed development plans are sanctioned. The remaining are under different stages of preparation. The details of the preparation stages are given in Table No.2.10.

Table No.2.10.

2.37 All the Detailed Development Plans will be revised after the approval of the review Master Plan.

MUNICIPAL FINANCE

2.38 Property tax (which includes tax for general purpose scavenging tax, lighting tax, water tax, and drainage tax) professional tax, vehicle and animal tax, entertainment tax, income through remunerative enterprises, grants and loans from Government are the chief revenue source for the Erode Corporation

2.39 Property tax is the major source of income for Erode Corporation i.e. 41% of the total revenue.

ADMINISTRATION

2.40 Erode Local Planning Authority Administrates the following local bodies.

- | | | |
|------------------------------|---|--------------------------------------|
| 1. Erode corporation | - | Erode corporation |
| 2. Surampatti | - | III rd Grade Municipality |
| 3. Veerappan chatram | - | III rd Grade Municipality |
| 4. Kasipalayam | - | III rd Grade Municipality |
| 5. Brahmana periya Agraharam | - | Town Panchayat |
| 6. Periyasemur | - | III rd Grade Municipality |
| 7. Pudur | - | Village Panchayat |
| 8. Punjai Lakkapuram | - | Village Panchayat |

- Town Panchayats are upgraded as IIIrd grade municipalities vide G.O.M.S.No. 7/2003 Dated : 14.06.2004
- Erode municipality was upgraded as corporation vide G.O.M.S. No.160 MAWS (Elec) 28th Nov 2007

LAND USE CLASSIFICATION

2.41 The lands in the LPA are classified in different uses according to their present usage.

PART – II

CHAPTER – 3 – ANALYSIS AND ASSESSMENT

3.01 Erode is the head – quarters of the Erode District Administration. It is a corporation having higher growth rate among class I towns of Tamil Nadu. Its economic base is commerce and industry.

3.02 The aim of the Master plan is to guide the growth of the town in future in a systematic and scientific manner. Entire corporation area has been developed. Growth of the urban area on the Northern and Eastern side of the corporation limit is controlled by the highly fertile wetlands available on the western banks of the river Cauvery. This fertile wetland restricts the urban growth in the other side of corporation limit. The developments taken place with in the town are comprehensive and continuous. Since most of the corporation area had been developed already further developments are only possible in the remaining lands of the Erode Local Planning Area.

PLANNING AREA

3.03 Even through Erode has been elevated to the District head Quarters, it is lacking with adequate infrastructural facilities like building for Government Offices, Government servant quarters, Truck Terminal, Organized parking lots, recreation facilities and service facilities etc.,. The land cost is very high with in the corporation area. Hence development haves started taking place in the surrounding areas like Surampatti, Veerappanchatram, Kasipalayam and Peiyasemur villages. The Collectorate it self has been located out side the corporation are along the Perundurair road leading to Coimbatore.

3.04 Taking the present growth rate of corporation and the settlements, the Pudur village, Punjailakkapuram and B.P.Agraharam are having lesser growth rate than above said villages.

3.05 As regards density erode corporation and Veerappanchatram have higher densities than the Kasipalayam, Pudur and Periysemur villages.

DEVIATION OBSERVED FROM MASTER PLANS

3.06 The trend of development of residential suburbs are coming up along Coimbatore and sathyamangalam road after setting up of Collectorate complex at Surampatty village (1979) adjacent to Erode Town. TNHB constructed housing flats in Veerappanchatram municipality. This trend has already been anticipated and provided necessary zones in these areas.

3.07 No large scale deviations to Master plan proposals have been taken place. But few major notable changes taken place contrary to the Master plan proposals as indicated below.

1. In the Master plan industrial zones were proposed on both side of A.P.Thangavelu chettiyar road and T.Verabadra chettiyar road. But only commercial developments have taken place along these roads.
2. Commercial uses have proposed adjacent to Manickam palayam road and Chinna Muthu Gounder Street. Only residential developments have taken place contrary to the Master plan proposals.
3. Northern side of Perundurair road in between Perumpallam odai and Chennimalai road and Northern edge of Cauvery road industrial developments were expected. But so far no such developments have taken place as expected and this may be due to the exorbitant land cost.
4. Industrial developments have taken place only on the North Eastern side of the town where in the lands were reserved for agricultural uses in the Master plan. Reason for this development is that the industrialists are disposing the effluent in to the Kalingarayan channel which runs very near to their lands. Presently industrial developments are picking up only on the outskirts of Erode Town limit.

POPULATION ESTIMATION

3.08 Population size gives an indication of the overall dimension of the physical environment and supplies a basic yardstick for the estimation of space needs for various categories of land uses. They assist in determining the amount of space needed for various zonal uses viz. Education, Residential, Industrial, Recreation and other community facilities etc. for accommodating the population.

3.09 The population of Erode Local planning area as per 1991 census was 3,33,095 and it was 2,47,875 during 1981, with a growth rate 34.38% for the decade 1981 – 1991.

3.10 The population of Erode Municipality was 1,59,232 in the year 1991 and it was 1,42,252 during 1981, with a growth rate 11.93%. This implies that the rapid development are taking place outside the town limit, in the adjoin area. Due to increasing industrial and commercial activities there would be a fast growth of population in the planning area.

3.11 In order to assess the population for planning purpose to arrive at the proposed land use pattern the existing population of Erode Local planning area has been projected for the plan years of 2001 and 2011 by adopting different statistical calculation methods and presented in Table No 3.1.

Table No.3.1

Population projections for Erode Town and Local Planning area in 2001 and 2011 (population in lakhs)

S.No	Statistical calculation method adopted	Town		LPA	
		2001	2011	2001	2011
	Decennial growth rate	1.80	2.00	4.50	6.00
	Straight line Method	1.89	2.16	4.54	4.98
	Average growth rate	1.97	2.45	4.71	6.66
	Exponential	2.01	2.47	4.74	6.70

3.12 Considering the past trends of population growth in Erode Local planning area the decennial growth rate method is more considerable for adoption. Accordingly the projected population for the planning years 2001 and 2011 would be 4.5 lakhs and 6.0 lakhs respectively. A population of 2.5 lakhs is expected at Erode Town in the plan period 2001.

ESTIMATION OF WORKING FORCE

3.13 An assessment of the working force expected in various economic sectors are most important factor in planning, as this estimation is required to assess the land needed for the various categories of land uses. The important economic activities are found to be industries, trade and commerce and transportation and communication etc., the expected rate of working population to the total population (Projected) for Erode Town and the planning area is 41.60%

3.14 The age – group details for the decade 1981 is given in Table No.3.2

Table No.3.2
Age Group in 1981

Age Group	Percentage To the total Population.	Percentage of Male population To the total Population	Percentage of Female population To the total Population
00-14	31.58	16.15	15.44
15-24	21.19	10.32	10.86
25-59	42.11	22.88	19.23
60 & above	5.12	2.66	2.46
Total	100.00	52.01	47.99

3.15 The above figures are collected from census of India 1981. While comparing these figures to that of previous decade the ration of segmented age group are more or less remain the same. The same ratio is assumed to be taken place in the plan period of 2011 and presented below in Table No.3.3.

Table No.3.3
Age Group in 2011

Age Group	Percentage To the total Population.	Percentage of Male population To the total Population	Percentage of Female population To the total Population
00-14	32.00	17.00	15.00
15-24	21.00	11.00	10.00
25-59	42.00	24.00	18.00
60 & above	5.00	4.00	1.00
Total	100.00	56.00	44.00

3.16 The expected total percentage of working force in the age group of 25 and 59 years is about 42.00% in the year 2011. The breaks up details are given in Table No.3.4 and 3.5 for Erode Town and Local Planning Area.

CHAPTER – 4

THE WORKING OF SPATIAL REQUIREMENT

- 1.1.** The rapid urbanization brings increased industrial activity; population growth contributes more awareness and forces acceptance of introduction of some form of spatial distribution of various occupancies competing among themselves. Thus it become imperative to formulate a plan that would be compass physical, economic, social and culture elements and would to stipulate and specify the future trend of development in a broad manner. Thus the developments which have taken place in Erode Town and Local Planning Area are considered as the guiding factor for deciding future requirements.
- 2.2.** In the case of Local Planning Area area the gross density works out to 43 persons per Hectare. The gross density of Erode Town is 186 persons per Hectare. The anticipated population for local planning area for the year 2011 is 6.0 lakes and the town is 2.5 lakes.
- 3.3.** The distribution of population indicates that there is a high density in the centre and older parts of the town mostly surrounded by commercial activities. High density is also seen along the Perumpallam odai where a number of slums have developed into thickly built up settlements.
- 4.4.** To achieve an orderly physical development, to have a concomitant land uses and to ensure a congenial eco system six land use classifications are proposed in the master plan they are.
1. Residential use
 2. Commercial use
 3. Industrial use
 4. Educational use
 5. Public & semi public use
 6. Agricultural use

LAND USE BREAK UP – LOCAL PLANNING AREA

RESIDENTIAL USE

5.5. The spatial requirement for residential use for population of 6.0 lakhs in 2011 in the local planning area has been assessed on the basis of gross density of 125 persons per Hectare. The residential area required will be 4800 Hectares roughly. But actually provision is made for 4804 Hectares, assuming that the existing irrigated dry lands and other dry lands will be subjected to conversion in to house sites to meet the demand in future due to fast growth of the town. It includes the land required for local roads and streets, convenient shopping centre, Nursery and primary schools, open spaces etc. the residential area has been divided into primary residential use zone and mixed residential use zone.

6.6. For Erode Town the residential land required on the basic of assumed gross density of 500 persons per Hectare. will be 500 Hectares. But Erode being a commercial centre residential activities are taking place on the fringe areas of the town. But how ever 686 hectares. of land is made available for residential uses. This is about 84.69% of the total developed area of Erode Town.

COMMERCIAL USE

7.7. Commerce is one of the main and important economic stay of erode town. Commercial activities are found place along the sides of all major roads within the town and also along Kangayam road. Well established commercial areas are located near the junction of Brough road, Katchery road and Bazar area. Since already commercial activities have started in the middle of the town, and due to heavy traffic hazahard in the core area it has been proposed to shift the business and commercial activities along karur bye pass road. About 2.05% of the total developed area of the town is earmarked for commercial purpose, while in the planning area 3.95% of the total developed area is earmarked for such purposes.

8.8. As per the planning standards about 15% of the total developed area is needed for commercial activities within the Erode Town. But actually provided is about 8.03% of the developed area similarly in the Local Planning Area as per standards about 6% of the total developed area is needed for commercial activities. But considering the present trend of development it is decided that about 3.98% of the total developed area may be sufficient to cater the needs of the commercial activities in the Local Planning Area.

9.9. In the proposal 50 meters on either side of the Perundurai road and sathy road, Kangayam road, Mettur road Cauvery road, Bhavani road, Kasipallayam & Muthur road are specifically earmarked for commercial purpose.

INDUSTRIAL USE

10.10. The total estimated working force in the planning area during 2011 is 2.1lakhs. The land required is arrived at the rate of 2.0 hectares of the land is being used for industrial activities. In order to curtail the industrial activities within the Town area it is proposed to allocate only 15 Hectares. Of land for industrial use, this is 2% to the total developed area.

11.11. Accordingly 419 hectares of land which constitute 7.46% to the total developed area has been earmarked for the Local Planning Area. Most of the industrial are found concentrated the water polluting nature and health of people the present industrial lands situated near the kalingarayan canal and within 5 K.M. radius from Cauvery River are discouraged by suggesting non-industrial uses largely as per Government order annexed in this report. For this purpose more lands for industrial purpose are proposed in karur bye pass road, and Muthur road within 5km from Cauvery River controlled industries with 130Hp alone are suggested in industrial area. In such controlled industrial area, Non polluting industrial i.e., orange and green categories of industrial as defined in G.O.Ms.No.127 environment and forest Dept. Dated 8.5.98 shall be permitted. Also for all industrial including special and hazardous industrial use are allotted near kangayam road in Local Planning Area which is 5Km radius away from Cauvery River. All industries permissible in this use zone.

EDUCATIONAL USE

12.12. Available higher level educational facilities are more or less sufficient to the anticipated population. One Medical college and two Engineering colleges are in existence at Perundurai very nearer to the Local Planning Area. Further 3 arts colleges are available with in the local planning area and 2 arts colleges are available out side the Local Planning Area which are not far away from the Erode town. Hence no provision for educational use has been proposed both in Local Planning Area and Erode Town.

PUBLIC AND SEMI PUBLIC USE

13.13. In this Zone allocations are to be made for Government office, medical institutions, bus stand, and truck terminal etc. an extent of 44 Hectares. For Erode Town and 100 hectares. For local planning area provided for under public and semipublic use. This extent constitutes 5.43% to the total developed area of town and 1.79% of total developed area of the Local Planning Area.

14.14. A truck terminal has been proposed at Gani rauther kulam in Periyasemur village abutting Sathy road having access to the bye- pass road.

15.15. Further a site has been earmarked at kasipalayam village abutting existing Karur bye – pass road for a new moffusil bus stand having easy access to the railway station and to decongest the town roads as well as town bus stand.

AGRICULTURAL USE

16.16. A high yielding wet land that lies along the western bank of the river Cauvery is rendered for Agricultural purposes only and no urban element is introduced for the purpose of preservation of valuable agricultural fields. About 1870 hectares. of land is allowed for agricultural uses, which constitutes 23.35% to the total Local Planning Area

PROPOSED LAND USE

Proposed land use for the Erode Town and Local Planning Area in the above mentioned broad classification for 2011 is given in the table No.4.01.

Table No.4.01
Proposed Land use Break up for Town and local Planning Area of Erode – 2011.

S. No	Land Use	ERODE TOWN					ERODE LOCAL PLANNING AREA (Including Erode Town)

DETAILED DEVELOPMENT PLAN AREA

4.18 The portion of the Erode Town where the Detailed Development Plans were notified and sanctioned under the Town and Country Planning act 1971 is classified as Detailed Development Plan area. The proposal for such area shall be carried away as per the proposal of the sanctioned Detailed Development Plan. In Erode town 5 Detailed Development Plans were notified. In which one Detailed Development Plans was sanctioned. Remaining Detailed Development Plans is in draft stage.

4.19 In Local Planning Area totally 58 detailed development plan were notified. In which 22 Detailed Development Plans were sanctioned, 17 DD plans were consented. Remaining Detailed Development Plans are in draft stage. The details of preparation and stages are already furnished in table No.2.10.

EXPANSION OF SERVICE AND THE PROJECTS INDENTIFIED

4.20 Presently about 165lakhs liters of protected water is being supplied to the Erode Town. About 50% of the town area is covered through the pipe line distribution. About 105 LPCD water is supplied to the present population both through the water mains and Lorries. TWAD board has taken up improvement work for an estimation cost of Rs. 447 lakhs and the above work is nearing completion.

4.21 For the planning period a totally quantity 312 lakhs liters / day of protected water may be needed to the anticipated population at the present level of supply for Erode Town.

4.22 For Pocal Planning Area project is taken up under composite water supply system by the TWAD board to provide protected water supply to the B.P.Agraharam Town Panchayat, Veerappachatram, Surampatti and Kasipalayam municipalities. In the rest of Local planning area water is being supply through the OHT maintained by the local bodies. Total water requirement for the rest of planning area is about 750 lakhs litres / day.

4.23 Requires supply may be provided by constructing addition head work and laying water mains to the un served areas. TWAD Board may be entrusted with these works, since there would be no constraint in the water supply source.

WASTE WATER AND SOLID WASTE DISPOSALS

4.24 Erode does not have underground drainage system. Human wastes and solid wastes are collected by open drainage system and transferred to the compost yard. Most of the roads are covered by either pucca and kutchra side drains which carry sullage water to let in to stream.

4.25 TWAD board has started the laying mains to provide under ground drainage system for Erode Town. The proposal is to divide the town in to 4 zones and providing pumping station wherever necessary for full scale treatment and disposal work for the sewage.

TRAFFIC AND TRANSPORTATION

4.26 In Erode there are seven arterial roads, three sub arterial roads and six connectors' roads. The width of some of the existing roads is not sufficient to meet the future traffic. Particularly the width of Brough road and Cavery road are not sufficient even to meet the present day to day traffic. Improper traffic management and encroachment are main reasons for the traffic congestion in these roads.

4.27 All developed areas are well connected with roads and are black topped. With in the town the roads of about 73kms are being maintained by Corporation and about 21kms. By highways department.

4.28 A bus terminal both for Mofussil and Town services has been constructed with the needed infrastructural facilities. The space adjacent to the bus terminal is utilized for parking of Lorries.

ROAD NET WORK

4.29 Erode town is well connected to nearby towns Viz. Coimbatore, Salem, Bahvani, Karur Kangayam, Sathymangalam and Chennimalai by arterial roads. North, West, South corridors are inner linked by Municipal roads. East corridor is not at all connected by roads due to existence of very good fertile nature of agricultural lands use, Kalingarayan Channel and Cauvery River, eastern part of the traffic are passing through Cauvery bridge only. The road network in Erode consists of the following main roads.

- i. Erode – Bahvani road - State Highways road leads to Bhavani in North – East direction and joins with NH47.
- ii. Erode Sathiamangalam road - state highway joins with NH47 leads to Gobichettipalayam and Sathiamangalam in west direction.
- iii. Erode - Thingalore road – A road to Thingalore and other villages in west direction is an other district road (ODR).
- iv. Erode - Coimbatore road – A state highways road connects Coimbatore passing through Perundurai in the Western direction.
- v. Erode - Chennimalai road – A major District road (MDR) leading to Chennimalai in the direction of south – west.
- vi. Erode – Kangayam road – state highway to Kangayam and Palani in south direction.
- vii. Erode - Karur road – state highway connecting Karur in south – Eastern direction.
- viii. Erode – Sankari road – A Major District road crossing Cauvery river joining with Sankari Salem in Eastern direction.
- ix. Brough road – this road is wider but commercial activities on either side, G.H. and P.S. Park inter sections lie in on either end of the road.
- x. E.V. Nanjappa (Mettur) road – Sathy and Perundurai roads are linked by this, commercial activities are concentrated along side of the road. This road is one way for public transport buses; entry towards bus stand is restricted.
- xi. E.V. Nanjappa road – connects Perundurai and Chennimalai roads.
- xii. Gandhiji road – connects Brough road and railway station.
- xiii. K.N.K. road – Traffic in the east passes through this road and to Bus stand.
- xiv. R.K.V. road – this road with heavy traffic joins Brough road with Cauvery road.

4.30 PALLAVAN TRANSPORT CONSULTANCY SERVICES LTD has prepared report for traffic operational and management plan for Erode. Traffic survey data are available in the report. The volume of traffic in important main roads during the peak hour is given in Table No.4.2. It may be seen that the present volume of traffic on most of the roads is less than the capacity of roads.

TABLE No.4.2
ROAD CAPACITY LIMITATIONS

S. No	Name of the road	Maintained by	Lenth of road kms.	Carriage way width Mts.	Capacity (PUCs)	Peak hour (PUCs)	Volume Capacira tio
1	K.N.K Road	H*	0.40	10.0	1710	1454	0.9

H* - Highways Road

C*- City Roads

4.31 Pallavan transport consultancy service Ltd. In its report on traffic operational and management plan for Erode has made elaborate study on important intersections, pedestrian movements on important stretches, conducted origin and destination survey parking survey and bus terminal study.

AIM:

Total ban of highly polluted industries with in 5km distance from banks of River Cauvery.

Allowing existing industries for a specific period but with the construction of individual on common effluent treatment plants to the standards of Pollution Control Board of Tamil Nadu.

Moratorium period to shift such polluted industries lying with in one kilometer but lying with in 5 kilometre distance from River Cavery. But there is no bar for industries move curler than the period mentioned clove.

SATELLITE TOWN

4.41 In the earlier master plan it was proposed to create satellite towns around Erode in order to act as counter magnet to take up the excess population in Erode town. Chithode and Perundurair towns were suggested for such purposes. Chithode NTDA was constituted and functioning from 1986. As regards Perundurair the proposal to constitute NTDA is under consideration of the Government.

CHAPTER – 5 – PHASING

5.01 The proposals contemplated in the Erode Master plan are suggested to complete in three phase viz. 2003 – 2007/ 2007 – 2011

PHASE I

5.02 The proposals are to be completed indicated with approximate cost requirement.

1) **80 Feet Detailed Development Plan Road**

5.03 Proposed 80 feet Detailed Development Plan road connecting Brough road and Chennimalai road to a length of 1.3km, runs parallel to Gandhiji road. This link road requires land acquisition construction of new bridge across Perumpallam Odai and formation of the road. The cost of the proposal is approximately Rs.90 lakhs.

2) **40 Feet road connecting Cauvery road (Burial ground) and Park road (Star Theatre).**

5.04 This proposed link road 0.64 kms. In length serves as a parallel road to K.N.K.Road, R.K.V.Road, and Clock Tower junction south side of park are likely to get relief from the congestion. The cost of the proposal is cost about Rs. 25 lakhs includes land acquisition and road formation.

3) **70 Feet road Connecting Perundurair Road and Chennimalai road**

5.05 This link road consists of two segments.

- (i) S.K.C. road to Perundurair road (0.98km)
- (ii) S.K.C. road to Chennimalai road (0.55km)

5.06 S.K.C. Road to Perundurair road

This proposed link road starts from S.K.C. road in Surampatty and passes via Jaganathapuram, NGGO Colony, Gandhi Nagar and reaches Perundurair road at the west side of Kalingarayan Guest house. This link has a length of 0.98km. It was observed that some stretches of the road have been already formed by the Corporation. A portion of these stretches were encroached upon and formation of the road link is feasible. It is suggested that Corporation could taken action to evict the encroachments and from the road.

(ii) S.K.C. Road to Chennimalai Road

5.07 Second segment of this proposed link road connects SKC Road and Chennimalai road via Surampatti crossing perumpallam Odai. Major portion of this link road have been encroached. It is suggested that the formation of 70 feet link road for a length of 0.55 kms. And construction of a bridge on Perumpallam Odai.

5.08 The proposed 70 feet link road will serve as a parallel road to E.V. Nanjappa road and relieve congestion on E.V. Nanjappa road and at G.H. intersection.

3) Pedestrian Subways.

5.09 Facilities for pedestrian who are the most vulnerable road uses have to be planned to enhance their safety and comfort. The provision for such a facility has been examined for the location as given under.

- (i) G.H. Intersection.
- (ii) P.S. Park Intersection

5.10 The Provision for the proposed pedestrian subways has been estimate at Rs. 150 lakhs for G.H. intersection and Rs. 60 lakhs for Pannerselvam park intersection.

4).Intersection Improvements

5.11 All the intersection improvements mentioned in chapter IV may be taken up.

5). Proposals in the Sanctioned Detailed Development Plans.

5.12 All the proposals such as parks play fields and open spaces reserved in the sanctioned Detailed Development Plans will be taken up in this plan period

PHASE – II 2007-2011

1).Byepass Road

5.13 The bye pass road from Bhavani road to Perundurai road which is in existence has to be widened.

2).Truck Terminal

5.14 The proposed truck terminal Opposite to Gani rauther Kulam in Sathy Road will be taken up and development with infrastructure facilities.

3).Bus Terminal

5.15 The proposed bus terminal located in Kasipalayam Municipality will be taken up and provided with adequate facilities.

3) Proposals in the consented Detailed Development plan.

5.16 All the proposals mentioned in the consented Detailed Development Plan will be taken up in this period.

PHASE III 2007-2011.

1).Bye Pass road.

5.17 The remaining portion of bye pass road from Perundurai road to karur road will be taken up which includes land acquisition, formation of road and construction of road over bridge.

2).Notified Detailed Development plan.

5.18 The proposals contemplated in the notified Detailed Development plan will be taken up during this period.

CHAPTER - 6 SOURCE OF FUND

6.01 The remunerative schemes may be funded under various loan schemes available to the local body. The service projects may be supported by the Govt. grants. All the implementing projects may be monitored by the Erode Local Planning Authority, Agencies for implementing the traffic proposals shall be the Highways & Rural Works Dept. Construction of Bus Terminal, Truck Terminal, shifting of Road side temples, construction of new link roads, provision of water supply, construction of underground drainage, storm water drain, provision of road light shall be the responsibility of concerned local bodies within the Local Planning Area.

6.02 The concerned local body may avail Govt. loan schemes such as **IUDP, MUDF, and HUDCO** etc. The Tamil Nadu Housing Board and Housing Co-operative Society have to play effective role to increase the housing stock of Local Planning Area besides the private developers. The industries departments such as **SIDCO, SIPCOT, TIDCO**, are the responsible agencies to provide industrial lands to the promoters with adequate infrastructure. Tamil Nadu Electricity Board has to ensure the required amount of Electric energy for the development of Erode Local Planning Area. Tamil Nadu Agricultural Department has to promote various advanced and highly profitable crop pattern in the Cauvery basin area thus to discourage the urban developments in that area and preserve the valuable agricultural wet lands in the Cauvery basin.

PART-III
CHAPTER-7 LAND USE ZONING

7.01 The entire Local Planning Areas is classified into several zones according to its use. To follow this zoning a certain provision has been made in the zoning Regulations on use of land and building in Local planning Areas. These regulations list out the permissible in each of the use zones and the restrictions to be imposed. The classifications of the zone that shall be adopted in Local planning Areas of Erode Local Planning Authority are as follows:

- (1) Residential Use Zone;
- (2) Commercial Use Zone;
- (3) Industrial Use Zone;
- (4) Educational Use Zone;
- (5) Public and Semi Public Use Zone;
- (6) Agricultural Use Zone;

Of these, the Residential use zone has been subdivided into two categories such as –

- (1) Primary Residential Use Zone;
- (2) Mixed Residential Use Zone;

Similarly the Industrial use zone has been subdivided into three Categories such as-

- (1) Controlled Industrial Use Zone;
- (2) General Industrial Use Zone;
- (3) Special Industrial and Hazardous Use Zone;

7.02 It has however to be noted that the zoning regulations contemplated in this chapter are independent of the rules and regulations that save to be formed for the purpose of any zone thereof. Within the Local planning Area every development within the area covered by the Master plan for Erode Local Planning Area shall conform to the regulations prescribed hereunder and also the proposals shown in the land use zoning map.

7.03 The classified uses zones are mentioned in 7.01 are identified with in the Erode Local Planning Area and the above zones are demarcated in the proposed land use map. Each zone is assigned with a code notation.

ZONING REGULATIONS

7.04 All the zones except Detailed Development Plan Area shall be regulated by the zoning regulations issued under the G.O.Ms.No. 1730 Rural Development and Local Administration Department Dated 24.7.1974. The same is appended in appendix. 'A'

7.05 In order to implement the proposals suggested in the Master Plan, certain essential and important zoning regulation have to be framed and enforced. Such zoning regulation will vest essential power with the competent authority for the enforcement of the Master plan. It has how-ever, to be noted that the zoning regulations contemplated in this have to be framed for this purpose of any zone or part thereof, with in the Local planning Area. Every Development within the area covered by the Master Plan for Erode shall conform to regulations prescribed in Appendix 'A' and also with the proposals shown in proposed land use map. These regulations shall guide the grant or refusal of permission and shall enforceable.

DEVELOPMENT CONTROL RULES

- 7.06**
1. No person shall carry out any development as defined Section 2(13) of the Town and Country Planning Act 1971 without the written permission of the Local planning Authority.
 2. Any Site approval or Planning permission for any development under these rules/regulations shall not absolve the applicant If his responsibility to get Clearance or permission under other Acts, Rules in force etc.
 3. While granting permission, the Local planning authority may impose such restrictions and condition as may be necessary under these rules.

4. (i) No development shall be in contravention of these rules.
 - (ii) No land, premise or building shall be changed or put to a use in-conformity with the provisions of these rules.
5. In the case of an area comprised in a Detailed Development plan consented/approved under the Town and Country Planning Act 1971 and in respect of areas comprised under Town planning Act of 1920m the Development Plan, and regulated as per the provisions contained in the respective Detailed Development plans.
6. Where for an area, a detailed layout plan or land development has been approved by the Local Planning Authority, with the approval of the Director, the zoning shown on such layout plan shall be applicable and the development s in the area shall be regulated according to these rules subject to such notifications as may be prescribed in such layout conditions.
7. The permission for any layout shall be granted by LPA with prior approval of Director or his authorized officer, subject to such conditions and regulations, as may be stipulated by him.
8. The multi-Storied Buildings shall be permitted only along roads having a minimum of 12 meters. width by the Local Planning Authority with the prior approval of Director subject to such conditions as may be prescribed by him.
9. The residential use zone shall be permitted in the Commercial use zone as per G.O.M.s. No. 1730 R.D. &L.A. Dept. dated 24.7.1974.
10. The layout and sub-division of land for building purpose shall be carried out only accordance with the provision specified below. The development land as residential/industrial/commercial etc., with the zoning regulations specified in the Master Plan.
11. Existing industrial units within 5km distance from Cauvery River are allowed modernization as approved by pollution control Board.

DEVELOPMENT CHARGES

7.07 Every Developer intending to develop any area shall obtain planning permission from Erode Local Planning Authority on payment of development charges at the rate fixed under the Act and Rules. The rates for institution of residential land use are fixed at Rs. 50,000 per hectare and for residential building at Rs. 12.50 / Sqm.

EXEMPTION

7.08 The Director of Town and Country Planning (or) Government can relax any of the provisions concerned in specific cases relating to as the case may be.

- (a) Set back and open space requirements in plots,
- (b) Permit any land and building use in any of the zones delineated or in any part of the Local Planning Area prescribing such conditions as may be deemed necessary.

VARIATIONS

7.09 Any variation to the zoning Regulations or variation to any of the clauses contained in the Master plan Regulations shall be effected as per the provision under section 32 of the Town and Country Planning Act 1971.

7.10 In so far as the lands included in this Master plan they shall be deemed to have been excluded from residential areas notified under section 89 of the Tamil Nadu public Health Act, 1939, and also from the Industrial area's notified under section 193 of Tamil Nadu District Municipality Act, and the land and Building Users Shall be regulated under the Town and Country planning Act, development plans.

GOVERNMENT OF TAMIL NADU

ABSTRACT

TOWN PLANNING – Preparation of Zonal plans – Formulation of Draft regulations submitted by the Director of Town and Country Planning – Approved.

RURAL DEVELOPMENT AND LOCAL ADMINISTRATION DEPARTMENT

G.O.Ms.No.1730

Dated the 24th July 1974

Read:

1. D.O. Letter No. 28332/MD/73-1, RD&LA Dt. 7.3.73.
2. From the Director of Town & Country Planning, letter No. 10989/73/S, dated 23.3.74
3. From the Member Secretary, Madras Metropolitan Development Authority, D.O Letter No. 1988/74, Ad-p dt.19.5.74.

ORDER

The Director of Town and Country Planning submitted draft zoning regulations on use of land and building particulars in urban areas. These regulation lists out the uses permissible in each of the use zones and the restrictions to be imposed. For the purpose of these regulations, it has been suggested that the urban areas may be divided into the following six major use zones:-

1. Residential Use zone
2. Commercial Use zone
3. Industrial Use zone
4. Educational Use zone
5. Public and Semi – Public Use zone
6. Agricultural Use zone

Of these, the Residential use zone has been further subdivided into two categories namely:

1. Primary Residential Use Zone and
2. Mixed Residential Use Zone

The Industrial Use zone has been similarly subdivided into three categories namely:

1. Controlled Industrial use zone
2. General Industrial Use zone and
3. Special Industrial and Hazardous Use zone

2. The Director has also stated that the Tamil Nadu Town and Country planning Act 1971, provides for the zoning of area under sections 17(1) and 20(2) (g) through the Master plans and Detailed Development plans respectively. He has recommended that the Draft zoning regulations may be approved and communicated to the local planning Authorities for adoption as part of the Master plan for proper land use planning and control in addition to other regulations may be sent to the Member Secretary, Madras Metropolitan Development Authority for adoption as part of the Metropolitan Development plan with such modification as may be necessary, in consultation with him (the Director) and the Government.

3. A copy of the draft regulation was sent to the Member Secretary, Madras Metropolitan Development Authority for his views. He has stated that the comprehensive land use proposals and zoning regulations for Madras metropolitan Area are under preparation and that the suggestion of the Town planning Directorate will be considered and incorporated to the extent as may be necessary in the proposals.

4. The government have examined the suggestion. They accept the views of the Member Secretary, Madras Metropolitan Development Authority, so far it relates to the Madras Metropolitan and as for other urban areas of the state. The government approve in principle, the draft zoning regulation submitted by the director of Town & Country planning. The Director is requested to finish copies of the draft zoning regulations to the Local planning Authorities as soon as they are constituted.

5. The receipt of this order may be acknowledged by the Director of Town & Country planning.

(BY ORDER OF THE GOVERNOR)

APPENDIX – ‘A’

USE ZONE REGULATIONS

RESIDENTIAL USE ZONE

- a) Primary Residential Use zone
- b) Mixed Residential Use zone

USE ZONE I - (a) PRIMARY RESIDENTIAL USE ZONE

Uses permitted

1. All residential building including single and multi – family dwellings, apartment dwelling and tenements together appurtenances pertaining thereto,
2. Professional consulting offices of the residents and other incidental use therefore,
3. Petty shops dealing with daily essential including retail provisions, soft drinks, cigarettes, newspaper, milk, kiosks, cycle repair shops and single persons tailoring shops,
4. Hair dressing saloons and beauty parlours,
5. Nursery and primary schools,
6. Taxi and Auto rickshaw stands,
7. Parks and playfields,
8. Storage of LPG cylinders for retail distribution (Vide G.O.Ms.No.457 & UD Dept.dated 01-06-1989),
9. Units exclusively engaged in software Development and training (vide G.O.Ms. N0.260 H & UD (UD IV(2)) Dept dated 29 -10-2002 and
10. Installation of the Base Transceiver Station Tower (Vide G.O.Ms.No.302 H & UD (UD 4.2) Dept dated 12-12-2002).

USE ZONE I - (b) MIXED RESIDENTIAL USE ZONE

Uses permitted

1. All uses permitted under Use zone (a) i.e. Primary Residential Use zone,
2. Hostels and single persons apartments,
3. Community Halls, Kalyanamandapams, Religious Building, Welfare centres and Gymnasis,
4. Recreation clubs, Libraries and Reading Rooms,
5. Clinics, Dispensaries and Nursing Homes,

6. Government Municipal and other Institutional Sub – Offices,
7. Police Stations, post & Telegraph Offices, Fire Stations and Electric Sub - Station,
8. Banks and safe deposit vaults,
9. Educational Institutions excluding colleges,
10. Restaurants without Residential accommodation, eating and catering houses and lodging houses for less than twenty occupants Vide Govt. Letter. No. 69759/UD IV (2) /89/11 dated 22-06-1992 of H & UD Dept).
11. Petrol filling and service stations,
12. Departmental stores or shops for the conduct of retail business,
13. Vegetable, fruit, flower, fish, eggs, and meat shops,
14. Bakeries and confectionaries,
15. Laundry, Tailoring and Goldsmith shops,
16. Cottage industries permissible in residential areas under G.O.Ms.No.566, dated 13-3-1962.
17. Storage of LPG cylinders for retail distribution (Vide G.O.Ms.No.457 H & UD Dept dated 01-06-1989),
18. Units exclusively engaged in software Development and Training (Vide G.O.Ms.No.260 H & UD (UD IV (2)) Dept dated 29-10-2002) and
19. Installation of the Base Transreceiver Station Towers (Vide G.O. Ms.No.302 H & UD (UD 4.2) Dept dated 12-12-2002).

USE ZONE II - COMMERCIAL USE ZONE

Uses Permitted

1. All uses permitted in the Use zone 1(a) and 1(b) i.e., Residential Use zones,
2. All commercial and business uses including all shops, stores market and uses connected with the display of merchandise, either wholesale or retail rent excluding exposure, obnoxious products and other materials likely to cause health hazards,
3. Business offices and other commercial and financial institutions,
4. Warehouses, repositories and other uses connected with storage or wholesale trade, but excluding storage of explosives or products which are either obnoxious or likely, to cause health hazards,
5. Cinema theatres and other commercial entertainment centers,
6. Research, experimental and testing laboratories not involving danger of fire, explosion or health hazards,

7. Transport terminals, including bus stands, railway, stations and urbanized parking lots,
8. Automobile repair shops and garages,
9. Small industries using electric motor not exceeding 20 HP and / or employing not more than 25 workers, which are not noxious or offensive due to odour, dust, smoke, gas noise or vibration or other wise dangerous to public health and safety,
10. Manufacturing service establishments and commercial uses using electric motors and not exceeding 50HP and / or employing not more than 25 workers, excluding those that are smoke, gas, vibration, noise etc., or other wise likely to cause danger or nuisance to public health or amenity. (Govt Letter No.12096/UD IV (1) /93-4 dated 02-08-1993 of H & UD Dept).
11. Restaurants with or without boarding and lodging houses, star hotels and nonstar hotels (Vide Govt.Letter.No.69759/Ud IV (2)/89/11, dated 22-06-1992 of H & UD Dept).
12. Storage of LPG cylinders for retail distribution (Vide G.O.Ms.No.457 H & UD Dept dt: 01-06-1989),
13. Units exclusively engaged in Software Development and Training (Vide G.O.Ms.No.260 H & UD (UD IV(2)) Dept dated 29-10-2002) and
14. Installation of the Base Transceiver Station Tower (Vide G.O.Ms.No.302 H & UD (UD 4.2) Dept dated 12-12-2002).

USE ZONE III - INDUSTRIAL USE ZONE

- a) Controlled Industrial Use zone
- b) General Industrial Use zone
- c) Special Industrial Use Zone

USE ZONE III - (a) CONTROLLED INDUSTRIAL USE ZONE

Uses permitted

1. All commercial uses listed under Use zone 1(a), 1(b) and i.e., residential and commercial use zones,
2. Industries using electric power not exceeding 130HP (LT Maximum load) but excluding industries smoke, gas, vibration etc., or otherwise likely to cause danger or nuisance to public health or amenity. Provided that these industries may use steam, oil or gas, power during periods of power shortages or failure.

3. Hotels, Restaurants and clubs, Places for social inter – course and workshop and dispensaries and clinics,
4. Residential building for caretakers, watchman and other essential staff required to be maintained in the promises.
5. Units exclusively engaged in software Development and training (vide G.O.Ms.No.260H & UD (UD IV(2)) Dept dated 29-10-2002) and
6. Installation of the Base Transreceiver Station Tower (vide G.O.Ms.No.302 H & UD (UD 4.2) Dept dated 12-12-2002).

USE ZONE III - (b) GENERAL INDUSTRIAL USE ZONE

Uses permitted

1. All commercial uses listed Use zone 1(a), 1(b) and 2. i.e. residential and commercial use zone,
2. All industries without restrictions on the horsepower installed or type of notice powers used excluding smoke, gas, vibration etc., or otherwise likely to cause danger or nuisance to public health or amenities,
3. Hotels, restaurants and clubs or places for social intercourse, recreation and workshop or for dispensaries and clinics,
4. Residential building for caretakers, watchman and other essential staff required to be maintained in the promises.
5. Units exclusively engaged in software Development and Training (Vide G.O.Ms.No.260 H & UD(UD IV (2)) Dept dated 29-10-2002 and
6. Installation of the Base Transreceiver Station Tower (Vide G.O.Ms.No.302 H & UD (UD 4.2) Dept dated 12-12-2002.

USE ZONE III - (c) SPECIAL AND HAZARDOUS USE ZONE

Uses Permitted

1. All commercial uses listed use zone 1 and 2 and i.e. residential and commercial use zones,
2. All industries permissible in the use zones III (a) and III (b) i.e., the controlled and general industrial use zones,
3. All uses involving storage, handling, manufacture or processing of highly combustible or explosive materials or products which are liable to burn with extreme rapidly and or which may produce poisonous fumes or explosive,

4. All uses involving storage, handling, manufacturing or processing which involve highly corrosive toxic or noxious alkalies acids or other liquids or chemical producing flames, fumes and explosive, poisonous, irritant or corrosive gases,
5. All uses involving storage, handling or processing of any material producing explosive mixtures of list of which result on the division of matter into fine practical subject to a sportageous ignition,
6. Processing or manufacturing anything from which offensive or unwholesome small arise,
7. Melting or processing tallow of sulphur,
8. Storing, handling or processing of manure, offal blood, bones, rags, hides, fish, horns, or skin,
9. Washing or drying wool or hair,
10. Making fish oil,
11. Making soap, boiling or pressing oil, burning bricks, tiles containing or lime,
12. Manufacturing or distilling sage and artificial manure,
13. Brewing beer, manufacturing by distillation arrack or spirit containing alcohol, whether dentured or not,
14. In general any industrial process which is likely to be dangerous to human life or health or amenity and not permissible in the Use zone III (a) and III (b) i.e., controlled industrial and the general industrial use zone,
15. Hotels, restaurants and clubs or places for social intercourse, recreation and worship or for dispensaries and clinic,
16. Residential building for caretakers, watchman and other essential staff required to be maintained in the premises.
17. Installation of the Base Transreceiver Station Tower (Vide G.O.Ms.No. 302 H & UD (UD 4.2) Dept dated 12-12-2002.

USE ZONE IV - EDUCATIONAL USE ZONE

Uses permitted

1. Schools, college and other higher education and training institutions and the uses connected herewith,

2. All uses permitted in the use zone 1(a) i.e., primary residential use zone,
3. Hotels and single person apartments,
4. Recreation clubs, Libraries and Reading rooms, and
5. Restaurants,
6. Storage of LPG cylinder for retail distribution (Vide G.O.Ms.No.457 H & UD dept : 01-06-1989),
7. Units exclusively engaged in software Development and training (vide G.O.Ms.No. 260 H & UD (UD IV (2)) Dept dated 29-10-2002) and
8. Installation of the Base Transreceiver Station Towers (vide G.O.Ms.No. 302 H & UD (UD 4.2) Dept dated 12-12-2002).

USE ZONE V - PUBLIC AND SEMI – PUBLIC USE ZONE

Uses permitted

1. Government and Quasi – government offices,
2. Art Galleries, Museums, Acquaries and public Libraries,
3. Hospitals, Sanitoria and other medical and public health institutions,
4. Harbour, Airport and flying Club,
5. Organised parking lots and bus and Taxi stands,
6. Parks, play fields, swimming pools, Stadium, Zoological gardens, Exhibition grounds and other public and Semi – public open spaces,
7. All uses permitted in the use zone 1(a) and 1(b) i.e., Residential use zone,
8. Storage of LPG cylinders for retail distribution (vide G.O.Ms.No. 457 H & UD Dept dated 01-06--1989).
9. Units exclusively engaged in software Development and Training (vide G.O.Ms.No. 260 H & UD (UD IV (2) Dept dated 29-10-2002).
10. Installation of the base Transreceiver Station Tower (vide G.O.Ms.No. 302 H & UD (UD 4.2) Dept dated 12-12-2002).

USE ZONE VI AGRICULTURAL USE ZONE

User permitted

1. All agricultural uses,
2. Farm houses and buildings for agricultural activities,
3. Rural settlements with allied uses,

4. Public and private parks, playfields, gardens caravan and campaign sites and other recreational uses,
5. Dairy and cattle farms,
6. Piggeries and poultry farms,
7. Water tanks and reservoirs,
8. Sewage farms and garbage dumps,
9. Airports and broadcasting installations,
10. Forestry,
11. Cemeteries, Crematoria and burning and burial grounds,
12. Storing and drying of fertilizers,
13. Fish curing,
14. Salt manufacturing,
15. Brick, tile or pottery manufacture,
16. Stone crushing and quarrying,
17. Sand, clay and gravel quarrying,
18. Installation of the Base Transceiver Station Tower (vide G.O.Ms.No. 302 H & UD (UD 4.2) Dept dated 12-12-2002).

List of cottage Industries as per G.O.Ms.565, Local Administration dated 13.3.62

1. Industries relating to the production of bakery, biscuits and cakes.
2. Manufacturing candle – sticks.
3. Manufacturing clips.
4. Coffee roasting and Grinding.
5. Industry relating to the production of confectionery sweets.
6. Decorticating shall by hand – grinding.
7. Enameling.
8. Manufacture of fountain pens.
9. Industry relating to jiggery manufacture, gur – making from sugarcane, date palm or palm rah and coconut tree, hand made sugar and – candy.
10. Industry relating to making hand – make paper and pulp, paper cutting as paper fans.
11. Industry relating to manufacture of ornaments and jewelry (including) bangles. And combs.
12. Soap making.
13. Manufacturing toys.
14. Making of agar bathi.
15. Industry relating to Aloc Fibre extraction – palmyrah, coconut fibbers.
16. Appalam manufacture.
17. Manufacture of apparel and ready– made clothing (including sarees and dhotis)
18. Areca nut cutting.
19. Making artificial flowers.
20. Banian manufacture.

21. Industry relating to bee – keeping (agricultural) honey and bee's wax
22. Manufacture of "Blanco cakes".
23. Blanket weaving.
24. Block engraving for cloth printing.
25. Braiding cord.
26. Brusch manufacture.
27. Button manufacture.
28. Calico printing.
29. Manufacture of cane furniture – also cane basket war, making.
30. Canvas shoes manufacture.
31. Manufacture of card board and card board boxes.
32. Cement ware works.
33. Clay modeling, pap ire Mache works.
34. Industry relating to making of coir rope.
35. Crayons manufacture.
36. Industry relating to dehydrating of fruit and vegetables, dried fruits and dried vegetables.
37. Embroidery knitting crochet and needle work.
38. Engraving on metal.
39. Manufacture of fiber and fiber products.
40. Industry relating to fruit canning.
41. Hosiery manufacture (with hand and power)
42. Manufacture of ice cone.
43. Manufacture of inks, ink pads (For rubber stamps).
44. Industry relating to manufacture of jam, jellies and preserves

45. Industry relating to manufacture of korai – mats, baskets, hand bags.
46. Lapidary work.
47. Laundry and cleaning clothes.
48. Leather goods making, boots shoes, chappals, slippers.
49. Match sticks manufacture (Manufacture of splints with wood only)
50. Minor radio parts manufacture.
51. Manufacture of ornamental leathercraft, moneypurses, hand – bags.
52. Manufacture of musical instruments – stringed or reed.
53. Painting of planks and glass.
54. Palmyra fiber brush making.
55. Palmyra leaf – fancy and utility articles, midribs manufacture.
56. Palmyra rafters and stumps – furniture and cots manufacture.
57. Manufacture of perfumery – essential oils and scents.
58. Pith works – manufacture of pith hat garlands, flower.
59. Industry relating to ply shuttle looms making.
60. Printing and allied trade – Book binding, block making.
61. Ribbon manufacture.
62. Spinning cotton and wool in charkas.
63. Storing of articles in Frigidaire.
64. Manufacture of syrups aerated waters and ice making.
65. Tailoring.
66. Twisting and throwing of silk cotton yarn.
67. Twisting and winding of silk thread, cotton thread and artificial yarn.
68. Vermicelli manufacture.

69. Wax coating on paper and cloth.
70. Weaving – cotton, wollen, tusser, jute, mates, silk.
71. Wood turners industry.
72. Wool clipping and grading.
73. Manufacture of wollen fabrics and wollen goods.

List of cottage industries as per G.O.Ms.No.566, Local Administration dated.13.3.1962

1. Arecanut cutting.
2. Appalam manufacture.
3. Bee – keeping (agriculture) honey and bee “s wax
4. Bakery biscuits, cakes.
5. “Blanco cakes”
6. Confectionery sweets.
7. Coffee roasting and grinding.
8. Dehydrated fruits and vegetables, dried fruit and dried vegetables.
9. Fruit canning.
10. Jiggery manufacture, gur – making from sugarcane, date palm or palmyrah and coconut trees, handmade sugar, sugar candy.
11. Jam, jellies and preserves.
12. Syrups, aerated water ice – making.
13. Vermicelli manufacture.
14. Apparel and readymade clothing (including sarees, dhotis).
15. Artificial flowers.
16. Aloe fiber extraction – palmyrah, coconut fibers.
17. Banian manufacture.
18. Blanket weaving.
19. Block engraving for cloth printing.
20. Brush manufacture.

21. Button – making out of mother – of – pearl, horns, brass and tin.
22. Calico printing.
23. Canvas shoes manufacture.
24. Embroidery, knitting, cochet and needle work.
25. Hosiery (with hand and power).
26. Laundry and cleaning clothes.
27. Leather goods making, shoes, chappels, slippers, bed – straps.
28. Ornaments and jewelry (including bangles, combs).
29. Ornamental leather craft, money – purse, handbags.
30. Weaving – cotton, wool, tusser, jute, marka, silk.
31. Spinning – cotton, wool in charkas.
32. Tailoring.
33. Woolen fabrics and woolen goods.
34. Wool clipping and grading.
35. Fly shuttle looms making.
36. Ribbon manufacture.
37. Cane furniture (also cane and basket ware, matting).
38. Cement ware works.
39. Coir, coir – making, rope.
40. Candle sticks manufacture.
41. Agarbathi making.
42. Manufacture of card – board boxes.
43. Clay modeling, peppier Mache works.

44. Crayons.
45. Engraving on metals.
46. Enameling.
47. Handmade paper and pulp, paper cutting and paper fans.
48. Inks, ink pads (for rubber stamps).
49. Lapidary work.
50. Musical instruments - stringed or reed.
51. Painting on planks and glass.
52. Perfumery – essential oils and scents.
53. Pith works – pithy hat, garlands, flower
54. Printing and allied trade – book binding, block making.
55. Soap – making.
56. Koraomats, plates, baskets, hand – bags, window – screen.
57. Palmyra leaf – fancy and utility articles, midribs.
58. Palmyra fiber – brush making.
59. Palmyra rafters and stems – furniture, cots, weaving of cots and seating from
stem strips
60. Wood turners industry, other wood works.
61. Fibre and fiber products.
62. Icons.
63. Match – stick manufacture.
64. Fountain pen manufacture.
65. Minor radio parts manufacture.
66. Braided cord manufacture.
67. Storing articles in Frigidaire's.

68. Toys.

69. Clips

70. Decorticating dhal by hand – grinding

71. Twisting and throwing of silk and cotton yarn.

72. Twisting and winding of silk thread, cotton thread and artificial yarn.

73. Wax coating on paper and cloth.

APPENDIX – D

GOVERNMENT OF TAMIL NADU

ABSTRACT

ENVIRONMENT CONTROL – Control of pollution of Water sources – location of industries within 1 KM from the embankments of river streams, dams etc. – Imposition of restriction-orders-Issued

ENVIRONMENT AND FOREST (EC – I) DEPARTMENT

G.O.Ms.No. 213

Dated the 30th March 1989

Read:-

1. G.O.Ms.No. 1 Environment Control dated 6.2.84.
2. From the Member – Secretary, Tamil Nadu Pollution Control Board Lr.No.EMS (1)/15878/88 dated 23.3.88
3. From the chairman, Tamil Nadu Pollution Control Board Lr.No. EMS (1) 44365/88 dated 3.11.88 and letter of even No. dated 30.12.88.

ORDER

In the Government order first read above, the Government have ordered, among other things that no industry causing serious water pollution should be permitted within one kilometre from the embankments of rivers, streams, dams etc. and that the Tamil Nadu Pollution Control Board should furnish a list of such industries to all local bodies. It has been suggested that it is necessary to have sharper definition for water sources so that ephemeral water collections like rain water, ponds, drains, sewerages (biodegradable) etc. may be excluded from the purview of the above order.

1. The Chairman, Tamil Nadu Pollution Control Board has started that the scope of the Government Order may be restricted to reservoirs, river and public drinking water sources. He has also started that there should be a complete ban on location of highly polluting industries within 1 Kilometer of certain water sources.
2. The Government have carefully examined the above suggestions, the Government impose a total ban on the setting up of the highly polluting industries mentioned in Annexure – I to this order within one kilometer from the embankment of the water sources mentioned in annexure – II to this order.
3. The Government also direct that under any circumstances if any highly polluting industry is proposed to be set within one kilometer from the embankments of water sources other than those mentioned in Annexure – II to this order, the Tamil Nadu Pollution Control Board should examine the case and obtain the approval of the Government for it.
4. The receipt of this order may be acknowledged.

(By order of the governor)

ANNEXRE – I

List of highly polluting Industries.

1. Distilleries.
2. Tanneries, Sago, Sugar, Dairies and Glue.
3. Fertilizer
4. Pulp and paper (with digester)
5. Chemical units generating trade effluent containing such pollutants which may tend to pollute air, water and land before treatment and those chemical which may alter the environmental quality by undergoing physical, chemical and biological transformation.
6. Petroleum Refinery.
7. Textile dyeing units.
8. Steel plants (Electroplating, Heat Treatment etc.)
9. Ceramics.
10. Thermal power station.
11. Basic Drug Manufacturing Units.
12. Pesticide.
13. Asbestos.
14. Foundries.

ANNUXRE – II

LIST OF RIVERS, STREAMS, RESERVOIRS ETC.

SI.No	Rivers	Tanks and Reservoirs	Canals
1	2	3	4
1	Cauvery	Bhavani Sagar	Kodivery Anicut Canals.
2	Bhavani	Uppar	Thadapalli channel. Lower Bhavani Canal.
3	Moyar	Vatamalaikarai Odai	Kalingrayan Anicut Canel
4	Noyyal	Varatupallam Gunderi pallam	Upper Reservoirs canel Vattamalai Kavary Odai Reservoirs Canel. Varattupalam Reservoirs Canal

/ture copy/

'RED' Category Industries

1. Lime manufacture pending decision on proven pollution control device and Supreme Court's Section on quarrying.
2. Ceramics
3. Sanitary – ware
4. Tyres and tubes.
5. Refuse incineration.
6. Large flour mills.
7. Vegetable oils including boiling process and synthetic detergent formulations.
8. Soap without steam boiling process and synthetic detergent formulations.
9. Steam generating plants.
10. Manufacture of machineries and machine tools and equipment.
11. Manufacture of office and house - hold equipment and equipment and appliances involving use of fossil fuel combustion.
12. Industrial gases (only nitrogen, oxygen and O₂).
13. Miscellaneous glassware without use of fossil – fuel combustion.
14. Optical glass.
15. Petroleum storage and transfer facilities.
16. Surgical and medical products including prophylactics and latex products.
17. Bakery products, biscuits and confectioneries.
18. Instant tea / coffee; coffee processing.
19. Malted food.

20. Manufacture of power driven pumps, compressors, refrigeration, refrigeration units, fire fighting equipments etc.
21. Acetylene (Synthetic).
22. Glue and gelatin.
23. Metallic sodium.
24. Photographic films, papers and photographic chemicals.
25. Plant nutrients (Manure).
26. Ferrous and non – ferrous metal extraction, refining casting, forging, alloy making processing etc.
27. Dry coal processing / mineral processing industries like ore sintering beneficiation, polarization etc.
28. Phosphate rock processing plants.
29. Cement plants with horizontal rotary kilns.
30. Cement plant with vertical shaft kiln technology – pending certification of proven technology on pollution control.
31. Glass and glass products involving use of coal.
32. Petroleum refinery.
33. Petrochemical industries.
34. Manufacture of lubricating oils and greases.
35. Synthetic rubber manufacture.
36. Coal, oil, nuclear and wood based thermal power plants.
37. Vanaspati hydrogenated vegetable oils for industrial purposes.
38. Sugar mills (White and Khandasari).

39. Craft paper mills.
40. Cocker oven by – products and coal – tar – distillation products.
41. Alkalis.
42. Caustic Soda.
43. Potash.
44. Electro – thermal products (artificial abrasives, calcium carbide etc.)
45. Phosphorous and its compounds.
46. Acids and their salts (Organic and inorganic).
47. Nitrogen compounds (Cyanides, cyanamides and other nitrogen compounds).
48. Explosives (including industrial explosive, detonators and fuses).
49. Phthalic anhydride.
50. Processes involving chlorinated hydrocarbon.
51. Chlorine, fluorine, bromine, iodine and their compounds.
52. Fertilizer industry.
53. Paper board and straw boards.
54. Synthetic fibers.
55. Insecticides, fungicides, herbicides and pesticides (basic manufacture and formulation).
56. Basic drugs.
57. Alcohol (industrial or portable).
58. Leather industry including tanning processing.

59. Coke making, coal liquefaction and fuel gas making industries.
60. Fire glass production and processing.
61. Refractories.
62. Manufacture of pulp – wood pulp, mechanical or chemical (including dissolving pulp).
63. Pigment dyes and their intermediates.
64. Industrial carbons (including graphite electrodes, nodes, midget electrons, graphite, blocks, crucibles, gas carbons, activated, carbon, synthetic, diamond, carbon black, black, lamp etc..
65. Electro chemicals (other than those covered under alkali)
66. Paints, enamels and varnishes.
67. Poly propylene.
68. Poly vinyl chloride.
69. Chlorates, per chlorates and peroxides.
70. Polishes.
71. Synthetic resin and plastic products.

ORANGE Category Industries

1. Electroplating.
2. Galvanizing.
3. Manufacture of mirror from sheet glass and photo framing.
4. Surgical gauges and bandages.
5. Cotton spinning and weaving.
6. Wires, pipes – extruded shapes from metals.
7. Automobile servicing and repair stations.
8. Restaurants.
9. Ice cream
10. Mineralized water and soft drinks bottling plants.
11. Formulations of pharmaceuticals.
12. Dyeing and printing (Small units)
13. Laboratory ware.
14. Wire drawing (Cold process) and bailing straps.
15. Steel furniture, fasteners etc.
16. Potassium permanganate.
17. Surface coating industries.
18. Fragrance, flavors and food additives.
19. Aerated water / soft drink.
20. Light engineering industry excluding fabrication.

21. Electroplating
22. Small textile industry.
23. Dye industry.
24. Pharmaceuticals industry formulation.
25. Plastic industry.
26. Chemical industry
27. Readymade garment industry
28. Flour Mills
29. Bleaching
30. Degreasing
31. Phosphate
32. Dyeing
33. Picking tanning
34. Polishing
35. Cooking of fibres, digesting
36. Designing of fabric
37. Unhairing, soaking, delimiting and bating of hide.
38. Washing of fabric.
39. Trimming, cutting, juicing and blanching of fruits and vegetables.
40. Washing of equipment and regular food washing using considered cooling water.
41. Separated milk and gee.

42. Steeping and processing of grain.
43. Distillation of alcohol, still age evaporation.
44. Slaughtering of animals, rendering of bones, washing of meat.
45. Juicing of sugar cane, extraction of sugar.
46. Filtration, centrifugation, distillation.
47. Pulping and fermenting of coffee beans.
48. Processing of fish.
49. DM Plant exceeding 20 kilo liters per day capacity.
50. Pulp making, pulp processing and paper making.
51. Coking of coal, washing coal, furnace flue gases.

'GREEN 'Category Industries

1. Wasting of used sand by hydraulic discharge.
2. Atta – chakkies.
3. Rice millers.
4. Ice boxes.
5. Dhal mills.
6. Ground nut decorticating (dry).
7. Chilling.
8. Tailoring and garment making
9. Cotton and woolen hosiery.
10. Apparel making.
11. Handloom weaving.
12. Shoe lace manufacturing.
13. Gold and silver thread and sari work.
14. Gold and silver smithy.
15. Leather foot wear and leather products excluding tanning and hide processing.
16. Musical instruments manufacturing.
17. Sports goods.
18. Bamboo and cane products (Only dry operations.)

19. Card board box and paper products (Paper and pulp manufacture excluded)
20. Insulation and other coated papers (Paper and pulp manufacture excluded)
21. Scientific and mathematical instruments.
22. Furniture (Wooden and steel)
23. Assembly of domestic electrical appliance.
24. Radio assembling.
25. Fountain pens.
26. Polythen, plastic and P.V.C. goods through extrusion / moulding.
27. Radio (Cotton plastic)
28. Carpet weaving.
29. Assembly of air coolers, conditioners.
30. Assembly of bicycles, baby carriage and other small non – motorized vehicles.
31. Electronics equipment (assembly).
32. Toys.
33. Candles.
34. Carpentry – excluding saw mill.
35. Cold storage (small scale).
36. Oil ginning / expelling (no hydro generation and no refining)
37. Jobbing and machining.
38. Manufacture of steel trunks and suitcases.

39. Paper pin and U – clips.
40. Block making for printing.
41. Optical frames.
42. Tire retreating.
43. Power Looms and handlooms (without dyeing bleaching).
44. Printing press.
45. Garments stitching, tailoring.
46. Thermometer making.
47. Foot – wear (rubber).
48. Plastic processed goods.
49. Medical and surgical instruments.
50. Electronic and electrical goods.
51. Rubber goods industry.

ABSTRACT

Information Technology – Setting of base Transreceiver station Towers and installation of equipment for telecommunication networks – leasing of space in government officers on a non exclusive basis to any licensed telecom company on certain prescribed terms and conditions-orders – issued.

INFORMATATION TECHNOLOGY DEPARTMENT

G.O.Ms.No.2

Dated 1.04.2002

Read:-

1. G.O.M.s.No.7 Information Technology Department, Dated 12.02.2001.
2. From Tvl.Reliance infocom Limited Chennai, Letter Ref.No.2375/IT/2001-02, dated 29.01.2001.

ORDER :

In the G.O. first read above, consolidated policy guidelines were issued specifying terms and conditions for the grant of centralized permission for the use of public right of way by any private or public sector applicant that proposes to lay optic fibre cables in the National State Highways and other roads in Tamil Nadu.

2) Tvl.Reliance infocom limited, who have been given centralized permission to lay optic fibre cables in TamilNadu, have indicated that in order to maximize the coverage throughout the state, permission is required for running leasing out Government land, Government buildings for putting up Base Trasreceiver Station Towers (BTS TOWERS) at technically feasible locations. The company has also requested the Government to grant exemption to it from observing side set back rules of Chennai. Metropolitan Development Authority Directorate of Town and country planning for the BTS Towers which are only temporary structures and to apply set room etc.

3. The government after careful consideration and detailed examination, have decided to issue general permission to any licensed telecom company providing infocom services to the end users, on a non – exclusively basis subject to certain terms and conditions

4. Accordingly, the government hereby accord permission to any licensed telecom company and which is committed to the cause for Government of Tamilnadu to install its Base stations consisting of Tower. Equipment room and generator room. On roof top or on the ground of premises and buildings belonging to Government of Tamil Nadu. Subject to availability and technical feasibility; on anon-exclusive basis and also subject to the following terms and conditions. Non-exclusive basis and also subject to the following terms and conditions.

- i. Permission for installing towers, equipment etc. on case-to-case will be issued by the District Collectors concerned in consultation with the district office concerned.

- ii. Availability of space of 4.5mts, x 4.5 mts.
 - iii. Technical feasibility – Building should be structurally strong to take a load of 3.5 MT to 6.0 MT depending on the height of tower.
 - iv. A telecom company providing infocom services and is desires of utilizing the Government premises / buildings for installing the base stations, should comply with all the regulations and stipulations including that of the ministry of Civil Aviation, Government of India, in installation of the base stations. All Clearances / permissions, required in the process of establishing the base stations are to be obtained by such company.
 - v. Permission may be given on non-exclusive basis.
 - vi. The future extension /expansion of building / premises may be kept in mind.
 - vii. Permission may be granted initially for a period of 10(ten) years.
 - viii. Damages caused, if any shall be rectified by such company should not be detrimental to the daily routine and activities of the Offices concerned.
 - ix. Leasing of the premises or buildings to such company should not be detrimental to the daily routine and activities of the Office or Offices concerned.
 - x. Appropriate rent shall be charged from such company.
 - xi. Exemption shall be given to the telecom companies from side set back rules of chennai Metropolitan Development Authority / Directorate of Town and Country Planning for the BTS Towers and the said rules shall be applicable only to the construction of buildings.
5. This orders issues with the concurrence of Housing & Urban Development, Revenue and Public Works Departments.

Government of Tamil nadu
Abstract

Land use zoning – Master plan Location restriction software units – Removal – Orders – issued.

HOUSING AND URBAN DEVELOPMENT (UDIV (2) DEPARTMENT
G.O.Ms.No.260 **Dated the 29.01.2002**

1. G.O.ms.No.1730 Rural Development and local Administration and Acquisition Department dated 24.7.74.
2. G.O. (Ms.) No.300. IMD (Mf2) dated 3.11.97.
3. From the Special Commissioner of Town and Country Planning Letter No.6336/2002/T/dated 13.3.2002.

ORDER:

In the G.O. first read above, orders were issued prescribing the norms governing land use zoning in respect of areas coming under Local Planning Areas. According to the orders issued in the above government Order, the Urban Areas are Divided into the following six major use Zones:-

- Residential use zone.
- Commercial use zone.
- Industrial use zone .
- Educational use zone .
- Public and semi public use zone .
- Agriculture use zone.

Of these, the Residential Use Zone has been further sub-divided into two categories. Namely:-

- 1) Primary Residential use Zone and
- 2) Mixed Residential Use Zone.

The industrial use zone has been similarly sub-divided in to three categories, namely:-

- 1) Controlled Industrial Use Zone;
- 2) General industrial Use Zone; and
- 3) Special industrial and hazardous use zone.

2. In the G.O.second read above, while announcing the information Technology industrial policy. It has been ordered that there will be no location a restriction for setting up units exclusively engaged in Software Development and Training.

3. In this letter third above, the special Commissioner of Town and country Planning has reported that Software units exclusively engaged in software development and training, are considered to be non conflicting uses and therefore there will be no location restriction for setting up of these units in any land use classified, except those lands reserved for special land hazardous and agriculture land use in the Master plan, in the with the provisions of amended Development Control Rules of Chennai Metropolitan Development Authority, and that the information technology industries also should not be permitted in areas prohibited by various Acts and Rules, relating to Coastal Regulation Zone, Archeological site, Heritage site, Airports, Burial ground, quarry sites. Railway properties etc. the special Commissioner of Town and Country planning has now requested the Government to effect changes to G.O.(Ms.) No. 1730 RD & LA Dept.. Dated 24.7.74 accordingly.

4. The Government after careful consideration accept the request of the Special Commissioner of Town and Country Planning and effect changes to the norms laid down in G.O.(Ms.)No.1730 RD&LA Dept., dated 24.7.74 to the effect that units exclusively engaged in Software development and training be permitted to avail all land uses. Viz., residential (Primary and mixed Residential), Commercial Public and semi-Public, educational, industries (controlled and general industries) except those that are earmarked for special and hazardous industrial and agricultural land use in the Master Plan.

ABSTRACT

Urban Development- installation of the base transreceiver Station Towers in all the land use zones in the Master Plan – permission – orders – issued

HOUSING AND URBAN DEVELOPMENT (UD 4.2) DEPARTMENT
G.O. (MS.NO)302 Dated: 12.12.2002.

READ:

1. G.O.(Ms.) No.1730, Rural Development and Local Administration Department, dt.24.7.1974.
2. G.O.(Ms.) No.2 Information and technology Dept., dated 1.4.02.
3. Government Lr.No.237/I&T/2002-2..Information Technology Dept, Dt.9.5.02.
4. From the special commissioner of Town and Country planning.
Lr.No.13287/BA1/dtr.3.6.20052 and 17.7.2002.
5. Government L.r.No.237/IT/2002-20007 Information Technology Department
Dated 18.9.2002.

ORDER

In the Government order second read above, the information Technology Department had issued order pertaining any licensed telecom company to install Base receiver station Tower. Equipment room and generator room on roof top or on premises and building belonging to Government on certain farms and companies from following the side set back rules of Chennai Metropolitan Development Authority Director of Town and Country Planning for installation of base Trans receiver station Towers and applicability of the said rules only to the construction of buildings.

2) Subsequently, in the Government letter third read above. The Information Technology Department has further clarified that the exemption given in G.O. (MS) No.a2 dated 1.04.2002 will be applicable not only for the Base Trans receivers towers to be installed on roof top or on the ground of premises and building belonging to Government of Tamil Nadu but also for the Base Transreceiver Station Towers to be installed on private land buildings.

3) In the letter fifth read above, the Information Technology Department while issuing certain amendments to para 4 and 5 of Government order second read above has directed Municipal Administration and water supply Department and Rural Development Department to issue necessary orders exempting under Tamil Nadu District Municipalities Building Rules 1973. Under G.O.164 Municipal Administration and water supply Department dated 0.1.1997 against restricting the height of the building structures Base Trans receiver station Towers within the Heritage zone of the Heritage towns and under G.O.(Ms) No1730, Rural Development and Local Administration Department dt 24.07.19974 allowing the Base3 trans Receiver Station Towers in all the land use Zones.

4. As regards the issue of allowing the Base Transceiver Station Towers in all the land use zones. The Special Commissioner of Town and Planning in his letter fourth read above has reported that as per the Government order first read above only permissible uses specified in each use zone as per the Master plan can be permissible. He has requested that since there is no provision at present in the Master Plan for permitting the Base Trans receiver Station Towers in all land use zones in the master plan may be the Government.

5. The Government after careful examination accept the proposal of the Special Commissioner of town and Country Planning accordingly direct that the installation of Base Transceiver Station Towers shall be permitted in all the land use zones in the Master Plan.

GOVERNMENT OF TAMIL NADU
ABSTRACT

Urban planning – Implementation of Information Technology Policy 2002 – Relaxation of Floor space index under Multistoried and Public Building Rules 1973 to the extent of 100% in designed IT parks in Urban Areas other than Chennai – orders – issued.

MUNICIPAL ADMINISTRATOR & WATER SUPPLY (MA1) DEPARTMENT
G.O. (Ms).No.317 Dated: 10.09.2004.

Read:

1. G.O. (Ms).No.52 Housing and Urban Development Department Dated 27.3.2003.
2. From the CTCP letter Roc.No.24582/2003/BAI/dated 20.2.2004.

...

ORDER :

The Information Technology Policy of Government of Tamil Nadu envisages to encourage and accelerate the growth of hardware and software industries and associated services in the state and the Government are keen to generate an ambiance by creating Information Technology corridors, construction of Information Technology parks besides extending concessions incentives to the Information Technology Industry. As a measure to boost construction of more Information Technology related parks. Corridors, suggestions have been made to the effect that the existing floor space index and Open space Regulations in Building Rules may be Relaxed in Respect of such buildings. As a first, the Government in their order first read above relaxed the building Rules in respect of Information Technology related buildings within Chennai Metropolitan Area as detailed below:-

- 1) Floor space index (FSI) to the extent of 100% shall be relaxed in respect of designated IT parks under Development Control Rules of Chennai Metropolitan Development Authority.
- 2) The requests of the Information Technology Companies for maintaining the space under the open space by applicant IT Company, itself under the Open Space Reservation Rules under Development Control Rules, 1991 of Chennai Metropolitan Development Authority shall be allowed.
- 3) The scope of development Information Technology Parks and related industries in areas other than Chennai is now gaining momentum. In order to facilitate these developments. The Commissioner of Town and Country Planning has suggested to extend the above said concessions to all urban centers of Tamil Nadu by relaxing the Rules under the Multistoried and Public Building Rules. 1973.
- 4) The Government have examined the proposal of the Commissioner of Town and Country Planning and have decided to accept the proposal and to issue orders in

line with the orders issued for Chennai Metropolitan Area. They accordingly direct that for IT parks in urban areas other than Chennai Metropolitan area.

i. Floor space Index under Multistoried and Public Building Rules 1973 shall be relaxed to the extent of 100% and

ii. The designed IT company should handover the Open space Reservation land to the local body by way of gift deed as per the procedure laid down in para 4 of G.O. Ms.No.222 MA & WS dated 28.1.1992. However, the local body may permit the IT Company for maintaining the open Space Reservation land by itself, if so required.

PROCEEDINGS OF THE DIRECTOR OF TOWN AND COUNTRY PLANNING
CHENNAI-2

PRESENT: Dr. T.PRABHAKARA RAO, I.A.S

Roc.No.19269/97 MP2

Dated : 11.7.1997

Sub : Development charges – Levy and Collection of Development charges in respect of Erode LPA Area – Proposals of the Erode LPA approved orders issued.

Ref : 1. G.O.Ms.No.2039, RD&LA dated 20.12.77

2. G.O.Ms.No.58, H& UD dated 23.1.95

3. G.O.Ms.No.396, H& UD dated 12.9.96

4. G.O.Ms.No.397, H& UD dated 12.9.96

From the Member Secretary, Erode LPA letter Roc.No.453/97 dated: 6.5.97

According to Sub-section (1) of section 59 of Town and Country Planning Act 1971 (Tamil Nadu At 1972), every Planning Authority including a. Local Authority where such local Authority is the Planning Authority, shall levy charges of use of land or building or development of any land or building for which permission is required under the said Act in the whole area or any part of the planning area within the maximum rates specified in section 60 of the said act (as amended). The proviso to sub-section(1) of section 59 of the said Act specifies that the rates of development charges may be different for different parts of planning area and for different uses and that the previous sanction of the Government has to be obtained for the rate of the levy.

In exercise of the power conferred by clauses (c) and (p) of sub-section-2 of section 122 read with the clauses (a) and (b) of the sub-section (2) of section 60 of the said Act, which specifies the minimum and maximum charges that are leviable by the appropriate planning authority on the institution of use and building, the Government in G.O.Ms.No.2039 RD&LA dated 20.12.77 have fixed the minimum and maximum rates.

In the letter fifth cited, the Member Secretary of Erode local planning authority has sent proposal for the levy of development charges by the Erode LPA for the previous sanction of the Director of Town and Country Planning with reference to the second proviso of sub-section(1) of fixed in G.O.Ms.No.396, H& UD dated 12.9.96

In the G.O.Ms.No.396, H& UD dated 12.9.96, Government have authorized the Director of Town and Country Planning to exercise the powers vested with the Government under the second provision to sub section 1 of the section 59 of the said Act to accord Saction to the Planning Authority for levy of development charges.

In exercise of the powers conferred in the G.O fourth cited, the Director of of Town and Country Planning hereby accords sanction for levy of development charges as shown in the annexure by the Erode LPA, as per the planning Authority (Levy Development charges) Rules 1975. This order supercedes the rates fixed in G.O. second cited

The above rates of levy will take effect from the date of publication of the notification in the Tamilnadu Government Gazette by the Erode Local Planning Authority specifying the rates of development charges.

The local bodies are requested to levy and collect the development charges at the rates mentioned in the annexure to this order and to transfer the amount to Local Planning Authority at the end of every month after retaining ½% (half Percent) of the amount as service charges.

Sd/- T.Prabakar Rao,
Director of Town and Country Planning

To,

1. Member Secretary Erode LPA,
2. Commissioner/Executive Officer of all comprising Local Bodies
(through Member Secretary Erode LPA)
3. Collector, Periyar District

Copy to

1. The Secretary to Government H& UD Department, Chennai.
2. Headquarters Officers.
3. Section and Spares.

T.S.No. 9, 10.

EXISTING ROADS, STREETS AND LANES.

T.S.No. 1.

BLOCK NO. 11. (TOTAL T.S.No. 1 to 67)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 8pt, 10pt, 11pt, 12pt, 15pt, 21 to 26, 46 to 48, 50pt, 54 to 66.

COMMERCIAL USE ZONE – C5

T.S.No. 1 to 4, 6, 8pt, 9, 10pt, 11pt, 12pt, 13, 14, 15pt, 27 to 31, 34 to 44,
49, 50pt, 51 to 53.

PUBLIC AND SEMI PUBLIC USE ZONE – P8

T.S.No. 16 to 20, 32.

EXISTING ROADS, STREETS AND LANES

T.S.No. 5, 7, 33, 45, 67.

BLOCK NO. 12. (TOTAL T.S.No. 1 to 75)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 1, 3 to 15, 17 to 22, 25, 26, 29, 31, 33 to 38, 40 to 46, 48 to 57,
59 to 64, 66 to 70, 72 to 75.

EXISTING ROADS, STREETS AND LANES

T.S.No. 2, 16, 23, 24, 27, 28, 30, 32, 39, 47, 58, 65, 71.

LOCK NO . 13. (TOTAL T.S.No. 1 To 19)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 1 to 13, 16.

PUBLIC AND SEMI PUBLIC USE ZONE – P7

T.S. No. 14, 17 to 19.

EXISTING ROADS, STREETS AND LANES.

T.S.No. 15.

BLOCK NO. 14. (TOTAL T.S.No. 1 to 125)

MIXED RESIDENTIAL USE ZONE – MR 6

T.S.No. 9 to 16, 18 to 24, 35 to 44, 48 to 60, 62 to 82, 84 to 94,
96 to 103, 106 to 120.

COMMERCIAL USE ZONE – C5

T.S.No. 2 to 8, 25 to 33.

EXISTING ROADS, STREETS AND LANES.

T.S.No. 1, 17, 34, 45 to 47, 61, 83, 95, 104, 105, 121 to 125.

BLOCK No. 15. (TOTAL T.S.No. 1 to 72)

MIXED RESIDENTIAL USE ZONE – MR 6

T.S.No. 4pt, 7, 9 to 11, 13 to 17, 19 to 28, 30 to 41, 43 to 56, 59 to 68.

COMMERCIAL USE ZONE – C5

T.S.No. 4pt, 5, 6

PUBLIC AND SEMI PUBLIC USE ZONE – P6

T.S.No. 3.

EXISTING ROADS, STREETS AND LANES.

T.S.No. 1, 2, 8, 12, 18, 29, 42, 57, 58, 69 to 72.

BLOCK NO. 16 TOTAL T.S.No. 1 to 37)

MIXED RESIDENTIAL USE ZONE – MR 6

T.S.No. 3pt, 8 to10, 12 to 21.

COMMERCIAL USE ZONE – C5

T.S.No. 3pt, 4 to 6, 22, 24 to 35.

EXISTING ROADS, STREETS AND LANES

T.S.No. 1, 2, 7, 11, 23, 36 to 38.

BLOCK NO. 17 (TOTAL T.S.No 1 to 96)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 4 to 11, 13 to 14, 16, 23 to 26, 33pt, 41 to 56, 58, 63, 65, 67, 68, 70 to 81.

COMMERCIAL USE ZONE – C5

T.S.No. 15, 17 to 19, 21, 27 to 32, 33pt, 34 to 37, 57, 59 to 61, 82, 83, 85 to 95.

PUBLIC AND SEMI PUBLIC USE ZONE – P7

T.S.No. 1, 20.

EXISTING ROADS, STREETS AND LANES.

T.S.No. 2, 3, 12, 22, 38 to 40, 62, 64, 66, 69, 84, 96

BLOCK NO. 18. (TOTAL T.S.No. 1 to 123)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 6 to 32, 35 to 60, 63 to107, 112, 114 to 116, 122.

COMMERCIAL USE ZONE – C5

T.S.No.108, 109, 111, 117 to 121, 123,

EXISTING ROADS, STREETS AND LANES.

T.S.No. 1 to 5, 33, 34, 61, 62, 110, 113.

BLOCK NO.19 (TOTAL T.S.No. 1 to 111)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 1 to 5, 7 to 17, 19 to 25, 27 to 40, 43 to 57, 59 to 69, 72 to 74, 77 to 90, 92 to 107, 109 to 111.

EXISTING ROADS, STREETS AND LANES.

T.S.No. 6, 18, 26, 41, 42, , 58, 70, 71, 75, 76, 91, 108.

BLOCK NO. 20. (TOTAL T.S.No. 1 to 49)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 1 to 15, 18 to 30, 32 to 40, 47.

COMMERCIAL USE ZONE – C5

T.S.No. 42 to 46

EXSISTING ROADS, STREETS AND LANES

T.S.No. 16, 17, 31, 41, 48, 49.

BLOCK NO . 21 (TOTAL T.S.No. 1 to 54)

MIXED RESIDENTIAL USE ZONE – MR 7

T.S.No. 3 to 26, 27pt, 28pt, 30pt, 32, 33, 34pt, 35pt, 36pt, 37pt, 38pt, 39 to 42, 43pt, 44pt, 45pt, 46, 47pt, 48pt, 49pt, 51pt,

COMMERCIAL USE ZONE – C5

T.S.No. 27pt, 28pt, 29, 30pt, 34pt, 35pt, 36pt, 37pt, 38pt, 43pt, 44pt, 45pt, 47pt, 48pt, 49pt,50, 51pt, 52, 53,

EXISTING ROADS , STREETS AND LANES

T.S.No. 1, 2, 31, 54.

BLOCK NO. 22. (TOTAL T.S.No) 1 to 152)

MIXED RESIDENTIAL USE ZONE – MR5

EXISTING ROADS, STREETS AND LANES

T.S.No. 6, 13, 18, 23, 27, 29, 34, 35, 49, 51, 62, 64, 66, 69, 79, 91.

BLOCK NO . 30. (TOTAL T.S.No. 1 to 48)

MIXED RESIDENTIAL USE ZONE – MR 5

T.S.No. 2 to 11, 14 to 20, 22 to 36, 38 to 42.

AGRICULTURAL USE ZONE – AG 6

T.S.No 12.

EXISTING ROADS, STREETS AND LANES

T.S.No. 1, 13, 21, 37, 43 to 48.

BLOCK NO. 31 (TOTAL T.S.No. 1 to 80)

MIXED RESIDENTIAL USE ZONE – MR 5

T.S.No. 2 to 6, 9 to 29, 31 to 45, 46pt, 47, 48, 50 to 79.

EXISTING ROADS, STREETS AND LANES

T.S.No. 1, 7, 8, 30, 49, 80.

LAND UNDER WATER

T.S.No. 46pt.

BLOCK NO. 32 (TOTAL T.S.No 1 to 72)

MIXED RESIDENTIAL USE ZONE – MR 5

T.S.No. 1 pt, 10 to 17, 37 to 42, 44 to 70.

COMMERCIAL USE ZONE – C4

T.S.No. 1pt, 2 to 9, 20 to 25, 27 to 36.

EXISTING ROADS, STREETS AND LANES

T.S.No. 18, 19, 26, 43, 71, 72.

WARD – C (BLOCK NO 1 TO 38)

BLOCK NO. 1 (TOTAL T.S.No. 1 to 143)

MIXED RESIDENTIAL USE ZONE – MR1

T.S.No.1 to 15, 18 to 46, 48 to 88, 90 to 108, 109pt, 110 to 113, 116,
118, 119, 122, 123.

COMMERCIAL USE ZONE – C1

T.S.No. 109pt, 114, 120, 121, 124 to 127, 129, 131 to 142.

EXISTING ROADS, STREETS AND LANES

T.S.No. 16, 17, 47, 89, 115, 128, 130, 143.

LAND UNDER WATER

T.S.No .117.

BLOCK NO.2 (TOTAL T.S.No 1 to 112)

MIXED RESIDENTIAL USE ZONE – MR 1

T.S.No. 1 to 24, 26 to 49, 51 to 67, 69 to 91, 94, 95, 96 to 111

EXISTING ROADS, STREETS AND LANES

T.S.No. 25, 50, 68, 92, 93, 112.

BLOCK NO. 3 (TOTAL T.S.No. 1 to 201)

MIXED RESIDENTIAL USE ZONE – MR 1

T.S.No. 3 to 9, 11 to 47, 49 to 69, 71 to 86, 88 to 101, 103 to 118, 120 to 124,
126 to 134, 136, 140 to 163, 165, 166, 168 to 190, 192 to 199.

EXISTING ROADS, STREETS AND LANES

T.S.No. 1, 2, 10, 48, 70, 87, 102, 119, 125, 135, 137 to 139, 164, 167, 191,
200, 201.

BLOCK NO. 4 (TOTAL T.S.No. 1 to 105)

MIXED RESIDENTIAL USE ZONE – MR 1

T.S.No. 1 to 23, 25 to 38, 40 to 49, 52 to 55, 60 to 76, 78 to 89, 91 to 95, 97 to 103,

EXISTING ROADS, STREETS AND LANES

T.S.No. 24, 39, 50, 51, 56 to 59, 77, 90, 96, 104, 105.

BLOCK NO .5 (TOTAL T.S.No 1 to 59)

MIXED RESIDENTIAL USE ZONE – MR 1

T.S.No. 3 to 15, 17 to 21, 23 to 32, 34 to 42, 43pt, 44pt, 45pt,

COMMERCIAL USE ZONE – C1

T.S.No.43pt, 44pt, 45pt, 46 to 50, 51, 52 to 59

EXISTING ROADS, STREETS AND LANES

T.S.No.1, 2, 16, 22, 33

BLOCK NO .6 (TOTAL T.S.No. 1 to 215)

MIXED RESIDENTIAL USE ZONE – MR 1

T.S.No. 2, 4 to 18, 20 to 26, 29 to 61, 63 to 78, 80 to 95, 97 to 110, 113 to 129,
131 to 145, 147 to 158, 160 to 182, 184 to 191, 193 to 203, 205 to 215.

EXISTING ROADS, STREETS AND LANES

T.S.No. 1, 3, 19, 27, 28, 62, 79, 96, 111, 112, 130, 146, 159, 183, 192, 204.

BLOCK NO .7 (TOTAL T.S.No. 1 to 179)

MIXED RESIDENTIAL USE ZONE – MR 1
