### 1. Preamble

- No of Households in the city is 18,724
- No of HH having with IHHL 18,081
- No of HH provided with IHHL 643 under SBM
- No. of HH not having space for construction of IHHL is 81 and that Households have been accessed with community Toilet
- No. of Community toilet is 14 Nos (140 seats)
- No. of Public toilets is 9 Nos (57 seats)

### 2. Current Status – Base line indicator for the year 2020-21

- At present Ramanathapuram Municipality has achieved ODF status. All the 9 numbers of Public Toilets and 14 numbers of Community Toilets are constructed with Bore well fitted with Motor and Pump units to provide water supply and
- The toilets are constructed with facilities such as electrical, lighting, ventilation and disposal of waste by providing septic Tank.

### 3. Action Plan to provide continuous water supply facility for Public / Community Toilet

- ✓ All the community /public toilets are provided with Bore well with motor-pump facilities.
- ✓ A plumber has been specifically allocated to visit all the Public / Community Toilet to ensure the water supply availability and to attend the fault on daily basis.
- ✓ In case of any ground water depletion during the summer, water supply through lorry will be arranged.
- ✓ Planned to construct a water sump near the toilets to ensure the water supply on 24 x 7 basis.
- ✓ Proposed to improve the 10 % of Community Toilets on Aspirational Basis to achieve ODF + before the year 2021-22

Base line indicator 2020-21	Target for the year			
	2021-22	2022-23	2023-24	2024-25
ODF	ODF +	ODF +	ODF +	ODF ++
