

TAMBARAM MUNICIPALITY

TAMILNADU SUSTAINABLE URBAN DEVELOPMENT PROJECT(TNSUDP) - 2020-21

The estimates has been prepared based on guidelines issued by the Tamil Nadu Urban Infrastructure Financial Services Ltd (TNUIFSL) with world bank technical comments of roads in Municipalities damaged due to natural calamities, implementation of underground sewerage and water supply schemes, etc. which include restoration of damaged roads, improvements, up-gradation and relaying of roads.

Relaying for road taken up under priority basis and meeting conducted by the Municipal official with Welfare Association members and the public of proposed road surrounding area of Tambaram Municipality. All the roads are owned and maintained by the Tambaram Municipality and are ready for laying of roads.

All the proposed roads for improvement works are free from encroachment/squatting/hawkers and don't involve acquisition of private land. There are no any temporary economic impacts identified. However, if encountered during the implementation of the project will be mitigated as per Social Safeguards Entitlement Matrix[Table -8 Entitlement Matrix for Compensation and R&R of Environmental and Social Management Framework (ESMF) of TNSUDP.

All roads connected with school, hospitals, religious features and no one trees affected to executed the project, Waste from construction will be reuse in the project site and unutilized waste will be disposed in dumping yard of Tambaram Municipality

It is proposed to take up the 5 Packages (90 nos of roads), and the estimate cost works out to **Rs. 1000.00** Lakhs under Tamilnadu Sustainable Urban Development Project (TNSUDP) 2020-21. The nature of restoration and relaying has been suitably decided based on the traffic volume, purpose of connectivity, and the width of road.
